This clinic is an ideal opportunity to give your young children an opportunity to participate in baseball related activities even before making a season long commitment. We will also host a question and answer session during the clinic for all parents who have any questions about our league or youth sports in general.

All participants will receive a FREE commemorative LA-MV baseball hat!

No equipment is necessary but kids are welcome to bring their glove if they have one but please be sure to write their name on it! If you have any questions about the clinic, please contact Brian Moody (brian.andrew.moody@gmail.com).
