

Game Rescheduling Due to Weather or Field Conditions Policy

Fall 2020

CW3 Soccer Association has established a policy for rescheduling games that are cancelled or suspended specifically due to weather or unplayable field conditions. This policy applies to our House, Juniors, and Rec Travel Programs. Please refer to the existing CW3 Game Rescheduling Procedure published on our website for steps on other rescheduling reasons well in advance of game day (i.e. typically team or coach availability related).

1. Games in which the second half has started are considered complete and will not be rescheduled if suspended due to weather or unplayable field conditions.
2. CW3 will attempt to reschedule games that are suspended due to weather or unplayable field conditions that have not completed a full half of the match.
3. CW3 does not guarantee that all games suspended due to weather or unplayable field conditions prior to a full half being completed will be rescheduled. Reschedules are subject to factors such as coach and team availability, field availability, referee crew availability, and the soccer season calendar. Therefore CW3 cannot guarantee the rescheduling of every game.
4. Games can only be cancelled due to weather or unplayable field conditions by the Center Official or the CW3 Soccer Association. Games cannot be cancelled by a coach of either team, unless coaches are self-refereeing the game due to absence of officials. All teams are expected to show up for games unless the fields have been closed by the CW3 Soccer Association. Any team that does not show for a scheduled game that has not been cancelled by CW3 Soccer Association will forfeit the game.
5. CW3 policy aligns to WSSL guidelines for our programs competing within the WSSL League.
