

Dear Region Leaders,

USA Volleyball has decided to move to a new and improved beach volleyball event management system. USAV recommended software will now transition from Bracket Pal to Volleyball Life starting with the 2023-2024 season. We are excited about this change and believe this new software will enhance your events as well as member and user interface.

The USAV points and ranking system will also transition to Volleyball Life with a new enhanced ranking system with a more robust and accurate process.

For those that already have BNQ's set up in Bracket Pal for the 2023 fall season you can either choose to stay in Bracket Pal or transition to Volleyball Life. Please contact the beach events department regarding what your preference is for these events. For any new events for the 2023 – 2024 season you will be required to have your BNQ set up in Volleyball Life.

BRQ events are still at the discretion of the region and promoters to use any system they choose. Remember that BRQ events still need to complete the event affiliate form and be sanctioned by the region.

Volleyball Life is happy to set up demos for your beach representatives and promoters. To set up time with Volleyball Life please reach out to Kevin McColloch at kevin@volleyballlife.com. If you have any questions about the transition, please do not hesitate to reach out.
