

## **Frontier Adult Hockey League Structure and Player Rating System**

To facilitate a healthy adult league, a system of ranking players and teams will be used. The process will be as transparent as reasonably possible. However, the system will not be perfect. It is important that all team captains work with each other, their teams and the league administration to create a healthy league.

### **Player Ratings**

The HHL player rating system will be used to assign an objective value (from 1 to 25) to all existing and new players. The HHL objective value will not be accurate for all players. The team captains and league commissioner will review the HHL objective values and assign a League Rating for every player.

Every team will have their team average calculated using their 12 players with the lowest rating (1 corresponds to the best players, 25 to the least talented).

### **Target Guidelines for Fall 2019**

Upper league:

Skaters with League Rating of 1-10 (players with a rating of 11-16 may play up)

Team Average: 5.0 to 7.0

Not more than three players ranked 1, 2 or 3 on each team

Middle league:

Skaters with League Rating of 8-18 (players with a rating of 19-20 may play up)

Team Average: 12.5 to 16.5

Not more than two players ranked 6 or 7 on each team

Lower league:

Skaters with League Rating of 16-25

Team Average: 17.5 to 20

Not more than two players ranked 13, 14 or 15 on each team
