I own my behavior, my results and my development and accept constructive feedback on all. I hold myself – and others – to the same high standard.

Intellectually Engaged – I am continuous learner of the game, of being a good teammate and athlete. I seek out new approaches and help others do the same.

My behavior is predictable. I act in others' best interest. I anticipate the same good intentions from others.

I will do whatever I can to help the club succeed and to support others to do the same, regardless of role.

My actions demonstrate appreciation for every role in the club, as well as those that contribute to my participation. I am an ambassador to the community.

We provide a clear pathway to professional, collegiate and national teams by maximizing individual potential through best practices, proven process and an aligned culture.

To develop more professional, collegiate and national team players than any academy in the United States.

Build your technical skills in our Academy Development Centers! These sessions are designed to build a strong technical foundation in young players U7-U10 (Birth Years 2014-2011) as well as promote quick decision-making through the use of small-sided games. Our professional staff will model various individual skills and techniques used to beat opponents in 1v1 and 2v1 situations, then encourage players to try these skills in 1v1, 2v2 and 3v3 games. This program is great for players looking to develop the skills necessary to be successful in our Academy.

ACADEMY JUNIORS LEAGUE

The Academy Juniors League (AJL) provides a fun, safe and developmentally-appropriate environment for young players to come to learn the game of soccer through training and game play. We help players aged 4 to 10 grow in the sport by introducing them to formalized weekend game-play in addition to staff-led training sessions.

Participants in the Academy Juniors League practice once per week in sessions facilitated by parent volunteer coaches and supported by Academy Directors. Our specialized curriculum helps players grow their technical skills and apply these skills in age-appropriate game-day environments.

Professional coaches use fun and imaginative games to teach children ages 3-4 the basics of athletic movement, soccer skills and peer socialization. Sessions include 30-40 minutes of fundamentals and 20-30 minutes of small-sided game play. While all sessions will be led by a paid coach, we invite interested parents to volunteer to assist the professional coach in these sessions as well!
