

CEVA CLUB DIRECTORS' UPDATES – 3/2/2023

- Start watching for status updates to your teams in AES that are registered for Regionals. If your team's status is updated to "OK to Pay" it means they have qualified for the tournament and you may pay your entry fee.
- CEVA will be adding a second site to Regionals this year – the NPJ Sports Complex in Salem – to allow more teams to participate. We have over 450 teams registered in the tournament, and a sold-out Expo Center can hold 368. We felt it's important to allow as many teams as possible to play in an end-of-season event.
- Reminder – 12s teams must have a rostered adult assist the junior work team at the scoretable. This adult cannot be simultaneously serving as the R2. This policy will be strictly enforced moving forward, and monetary fines can be imposed on clubs who fail to meet this requirement. Please help us make our tournaments more efficient by taking this on.
- Athletes who turn 18 during the season must take and complete Safesport's Core training course. Athletes who are 18 and haven't taken this course are not permitted to participate. There is no "grace period" for this requirement. This is a USAV policy that our region must enforce.
- CEVA is planning on a second sitting volleyball clinic next Friday, March 10th at Cascade Middle School in Vancouver. We had a great turnout at the first one and look forward to continued growth. Start time is 6:00 PM.
