

Graffiti Removal Authorization

The Minneapolis Downtown Improvement District (MDID) provides graffiti removal from public spaces within the district boundaries. Additionally, for a fee, MDID will provide this service to private property within the district. Through our service provider, Block by Block, the MDID will remove or cover graffiti from the first floor of buildings or other structures whenever the graffiti is visible from the public right of way. With the permission of the property owner, Block by Block will automatically remove this graffiti within 24 hours of observing it or within 24 hours of receiving a request from a property owner to remove it (subject to weather conditions, Sundays and holidays excepted). MDID will contact the property owner for approval prior to proceeding with any graffiti removal that, due to unusual application or size, will require a greater fee to remove.

If you would like to receive this service, please submit a separate right of entry graffiti removal authorization consent for each building you authorize the MDID and Block by Block to keep free of graffiti. This should be faxed to our Downtown Operations Center at (612)332-1121 or can be emailed to info@minneapolisDID.com. The consent may be withdrawn at anytime by submitting written notice to the same location.

Consent to Remove Graffiti

Permission is granted to the Minneapolis Downtown Improvement District, Block by Block, and its agents to remove graffiti from the structure located at _____ for a fee to be negotiated with property owner (up to \$50 per graffiti tag measuring four square feet or smaller or up to \$75 for tags measuring larger than four square feet) using the method specified below:

_____ Remove with typical graffiti removal chemicals (environmentally safe)

_____ Paint over graffiti with paint furnished by the owner

_____ Pressure wash graffiti

_____ Other (specify) _____

MDID, Block by Block and its agents will not cover existing exposed materials and will use a graffiti removal process that is environmentally friendly. No sandblasting or harsh chemicals will be used in the graffiti removal process. Property owner hereby holds harmless MDID, Block by Block and their agents for any damage caused as a result of these services provided that MDID and Block By Block acted in good faith and without gross negligence.

The undersigned hereby states that he/she is authorized to grant such permission on behalf of the property, and agrees to make payment promptly when invoiced for graffiti services conducted as a result of this consent.
