Libero Tracking Clinic

Officials and Work Team

Common Placement

Materials Needed to Keep Score

- 5 Regular score sheets (3 of 5 match)
- 2 line-up sheets (1 for each team)
- Libero tracking sheet
- 2 contrasting pens (recommend Black or Blue and Red)

- As the libero tracker, you only need 1 pen

Instructions for the WIAA Libero Tracking Sheet

PRE-MATCH

- > Write team names *on the correct serving side (based on how you are viewing the court)*
- > Fill in starting player numbers, by serving order, for each team, under the “SP” column (captains with a “c”)
- > Record the libero number for the set in the appropriate area

DURING THE GAME

- > Record **all** substitutions as they occur
 - > For official substitutes:
 - strike out the player leaving with a single slash and write in the new player’s number on the line next to the struck out number; strike out the count for subs underneath
 - > For libero replacements:
 - do not* strike out the player leaving for the libero; simply write an “L” next to the player number
 - when the player comes back in for the libero, *do not* strike out the L, simply write the player number back in next to it
 - you can check that correct libero replacements have been made because each one will be “#L#” (i.e. - 3L3; if you have 3L5, it’s possible there was a mistaken replacement)
 - > For the libero double switch:
 - if two players who are not the libero switch behind the attack line, that is a libero double switch; the player going in is going in for the libero, and the libero is going in for the player leaving
 - make sure you record both replacements** – put the player going in for the libero back in where the libero is currently marked, and then put the libero in for the player who came out (and is up to serve)
- > Put a triangle around the number of the position the libero serves in (if they serve)
-  > To help the scorekeeper, you should make a tally in the column labeled “S” for each time that serving position comes up; this helps keep track of the serving order and can help you with the double switch as well (it should always occur when the position the libero serves in comes up)

Practice Set Situation

- The following is a set situation. As you follow along with this situation you will see the placement on the libero tracking sheet. We recommend you use pencil during this session. After each situation click the mouse to see the results, then click again to move forward.

- You arrive at Ferris HS for the match as the libero tracker. As you approach the table you see that you have all the appropriate materials to do your job.
- Ferris is on your right side and Shadle Park is on your left side warming up as you are seated at the table
- The lineups are turned in for both teams

Subs: 1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18

- The column marked “S” is for you to keep track of who is serving
- The first time a player serves during their term of service, make a mark in that column
- This allows you to track out-of-order servers, and can help you identify when libero switches will happen once you recognize the patterns

WIAA LIBERO TRACKING SHEET

SO = Serving Order S = First serve in each rotation SP = Starting Player

TEAM: Shadle Park				Libero # 20
SET	SO	S	SP

Subs: / 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18

L(20)	8	3	L(19)
12	6	5	11
2	4	7	13

•Set finishes while Shadle Park 2 serves.

SUMMARY and TIPS

- Keep your eyes up! Libero switches happen without a whistle, so you need to see them happen
- Track the first time a play serves in the “S” column
- Substitutes are *slashed*, libero replacements are not
- Track the total number of subs below the box for each team
- Put a triangle around the position the libero serves from
- Inform the R2 as soon as possible during a dead ball (before the beckon for serve or after the rally– not during play) if:
 - The libero serves from a different position than the triangle
 - The wrong player comes back in for the libero
 - You notice a player’s number listed on multiple lines (you can verify this with the scorer, too)
