

Concussion ImPACT Testing

NovaCare[®]
REHABILITATION

The Power of Physical Therapy™

Throughout the United States, it is estimated that more than four million concussions occur each year. A concussion is a traumatic brain injury that is caused by either a direct force/blow to the head or a force transmitted through the body to the head. Concussions can be caused by falls or any other situation where the head receives a sudden jolt. A majority of concussions are sports-related.

NovaCare Rehabilitation's **comprehensive concussion management program** offers specially trained experts who provide individualized concussion evaluations and rehabilitation programs, including **Baseline ImPACT Testing**.

ImPACT Testing is a widely used concussion evaluation system for return-to-play decision making. ImPACT takes approximately 20 minutes to complete and measures multiple aspects of cognitive functioning, including:

- Attention span
- Working memory
- Sustained and selective attention time
- Response variability
- Non-verbal problem solving
- Reaction time

NovaCare Rehabilitation is proud to be the **exclusive provider of athletic training services** to the **Palatine Amateur Football Association** and wants to help your kids stay on the gridiron and up-to-date on concussion management and recovery! A NovaCare athletic trainer will be on the sidelines at all home games. Should a concussion be suspected following an injury and the child had the initial Baseline ImPACT Test, NovaCare will administer a post-concussion ImPACT Test and work closely with the physician of the parent's choosing for appropriate return-to-play protocols.

Individuals **10 years of age and older** are invited to join NovaCare Rehabilitation for ImPACT Testing! Cost is \$10 and includes ImPACT Testing and follow-up testing for one year as well as reports for parents and physicians.

Concussion ImPACT Testing
Saturday, July 21, 8am-12pm and
Saturday, July 28, 8am-12pm

NovaCare Rehabilitation
220 N. Smith Road, Suite 100
Palatine, IL 60067

6 spots for testing every 30-minutes! Sign up today!
