

# Angela Coffey

As an avid hockey enthusiast, I am deeply passionate about the sport and our community. Having been involved in hockey for several years, both as a player, supporter, and coach I understand the importance of effective leadership and collaboration in fostering a thriving hockey environment. I am eager to leverage my experience to help enhance the overall experience for players, coaches, and fans.

Moreover, I am committed to advocating for the development of youth hockey programs, fostering talent at all levels, and creating opportunities for individuals from all backgrounds to participate in and enjoy the sport. By serving on the hockey board, I can actively contribute to the advancement of the above goals and make a meaningful difference in our hockey community. I am excited about working together to support and strengthen our beloved sport.

When we are not living in the hockey rink with our 3 boys Owen (12), Camden (9) & Weston (9), our family is very involved in other areas of the community including volunteering in the schools. All 3 boys play baseball and Paul, my husband, has been coaching Mahtomedi baseball for 8 years and is a member of the baseball board. They have also played (and Paul helped coach) Mahtomedi football.

## EXPERIENCE
