

Coach Sean Curtis

The 2024 season will be Sean Curtis' 4th season as a member of the Douglas County coaching staff. Curtis will again serve as a Linebackers coach for our Varsity and JV players.

Coach Curtis is excited to continue his coaching career with DCHS and to continue the development of a football program with historic traditions of excellence and pride. He is a dedicated individual and excited to support young student to become true competitors both on the field and in the classroom through instilling and expecting values of character, respect, leadership, selflessness, and teamwork. Curtis looks forward to showing his student-athletes how his high expectations on the field will apply to their life and their ability to overcome adversity.

After making the difficult decision to decline opportunities to play college football, Curtis attended Colorado State University and graduated with a B.S. in Business Administration in 2013. He also attended a semester in California completing the Disney College Program internship where students are challenged to lead by action, to use their values to inform how they lead and to be an example for others. Following his graduation from Colorado State University he worked for CSU's athletic department for two years before transitioning to a career in financial compliance. Curtis is a competitor in all that he does and looks forward to focusing some of his competitive spirit on high school football.

Curtis is originally from Longmont, CO where he attended Longmont High School. There he was a three-year letter winner in football while earning All-Conference and All-Area honors as an outside linebacker and defensive captain. Sean and his wife Lauren reside in Castle Rock with their two rescue dogs, Bohdi and Lambkin.
