FISCHER RACE CODE IS THE SEAL OF QUALITY FROM HIGH LEVEL RACING

Feedback from every athlete in the Fischer racing team always takes the highest priority when we develop a new racing collection. Our product development team is in a constant feedback loop with our athletes, so we can apply their insights from the slopes directly into technological innovations. Giving even the smallest details great weight is the only way to guarantee true advancements in technology.

This know-how isn't found only in Fischer skis. Combine RC4 skis with the RC4 Podium boot for the ideal set-up, exactly as you see in Fischer racing team World Cup victories. The ski boot is the critical link between skier and ski. It is the direct connection to the course and determines the amount of control and power transfer the skier puts down onto the course.

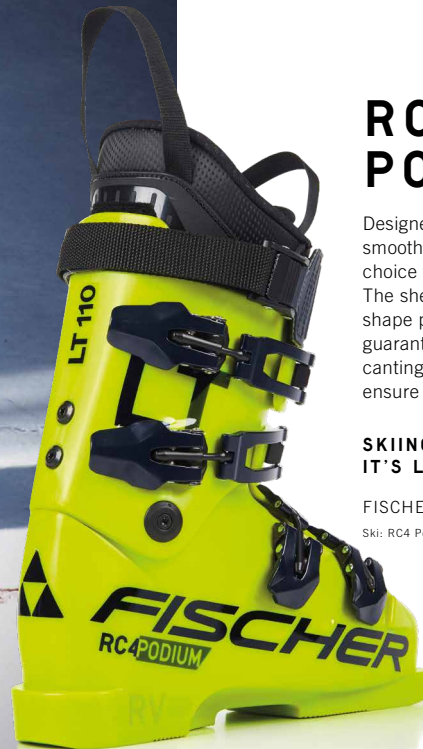

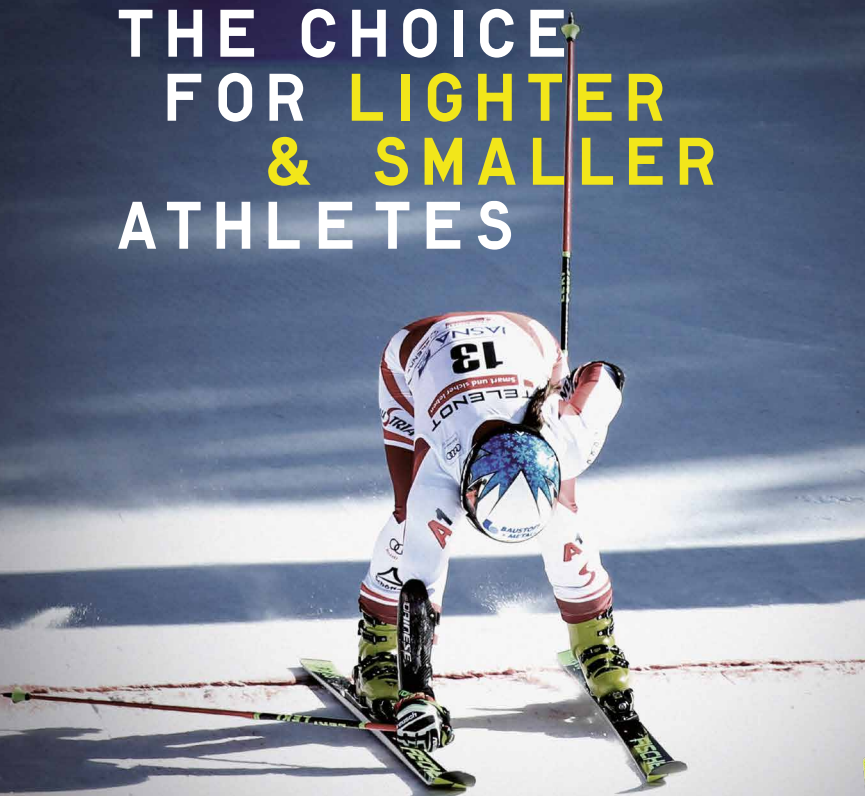

Innovation and performance technology have been part of Fischer since its founding and are as important as ever. You'll find all the information about the 22123 collection and beyond, along with all our latest innovations, in this folder at www.fischersports.com. Much success and enjoyment with the Fischer Race Collection 22123!

THE CHOICE FOR LIGHTER & SMALLER ATHLETES

RC4 PODIUM LT

Designed around a shortend cuff and smooth nimble flex, it is the perfect choice for lighter and smaller athletes. The shell wrap of the new 95mm last shape provides an anatomical fit and guarantees control. Low-tolerance canting and a new tailored liner ensure a direct power transfer.

**SKIING IS NOT A LIFESTYLE.
IT'S LIFE.**

Ski: RC4 Podium LT 110

ADULT

A collection of Fischer skis and bindings is arranged on a snowy surface. The skis are primarily bright green with black accents and the word 'FISCHER' printed in large, bold, black letters. The bindings are black and silver, with 'FISCHER' and '720' visible on them. The scene is brightly lit, creating high contrast and casting soft shadows on the snow.
