

OUR OBJECTIVE

Young players often struggle with the transition from youth baseball into higher levels. It's important to plan for the transition by focusing on preparation and understanding of the fundamentals of the game so as the level of play increases, players are up to the challenge.

At GamePrep Baseball Academy, our goal is to provide our players with evaluation, education, development, and competition to get them ready for the next level through organized practice regimens and tournament play.

Part of development is experiencing adversity and responding accordingly. Competition as part of a team is an important part of growth. Players are given equal opportunities to earn playing time through success, dedication, effort, and attitude. We believe the player who can stand up to competition and accept the challenges it brings is the player who will overcome adversity and be ready for advancement.

We are looking for players who are committed to the hard work necessary to become the best they can be. Our Coaching Staff possess a wealth of knowledge of the game and a quality understanding of how to teach and develop players. Our ideal player is one with a love for the game, a thirst for baseball knowledge and a fierce work ethic. Along with talent, these attributes are necessary to excel and develop one's maximum potential.

Communication is a key element to our success. We require all participants in our programs to join our website membership for access to email notices, updates including schedules, calendars, and upcoming events.

Please review the attached Season Outline which represents the framework of our commitment to meet our objectives for each player.

Thank you for your interest and Welcome to GamePrep!
