Aid Station Guide for IRONMAN Ireland, Cork  
2022

# AID STATION GUIDE BREAKDOWN

We appreciate that sometimes the Athlete Guide can be a lot of information to take in at once. Due to this, we have created a bite size Aid Station Guide to give you all the information you need about the on course nutrition and aid station layouts at this year's IRONMAN Ireland. Our volunteers will be on hand to replenish the aid stations with product to ensure you can grab some as you go by but please note this is subject to availability.

We would suggest trying out the nutrition we provide and train with them if you are hoping to use them on the day but you don't have to use the nutrition we provide, this is your choice.

If you have any questions regarding nutrition on the course, you can get in touch with our Athlete Services team on the email address below:

# ON-COURSE NUTRITION PRODUCTS

## Gatorade Powder **RUN COURSE**

Gatorade products have the FLUIDS to help replace what you sweat out, ELECTROLYTES to aid in rehydration, and CARBS to help refuel working muscles. Pre-filled cups with a mix of Gatorade Powder will be available for athletes to collect contactlessly.

## Gatorade Ready To Drink **BIKE COURSE**

Gatorade products have the FLUIDS to help replace what you sweat out, ELECTROLYTES to aid in rehydration, and CARBS to help refuel working muscles. The 750ml Thirst Quencher bottles will be available for touchless collection.

### **RUN COURSE**

## GEL 100 CAF 100

The GEL 100 CAF 100 contains 100 mg of caffeine – that's the equivalent of 1,5 espressos – or one cup of brewed coffee. That's a lot compared to many of the traditional gels out there. It delivers 25 grams of carbohydrates through a unique blend of fructose and glucose (ratio of 0.8:1). It packs a high weight to energy ratio and doesn't contain any added flavours, preservatives or colourants. Just like all of our products, it's vegan-friendly.

## Red Bull Energy Drink **RUN COURSE**

Red Bull Energy Drink is a lightly carbonated functional beverage containing taurine, caffeine, B-vitamins and sugars. One 250ml can contains 80mg caffeine, about the same as a cup of coffee. The cans are 100% recyclable. The product will be served diluted with water in Red Bull paper cups.

## GEL 100 **RUN COURSE**

This is the GEL. It's a bold statement. But nonetheless true. From a technical perspective, traditional gels are water and carbohydrates simply mixed into syrups, often containing added flavors and preservatives. The GEL 100 is completely different. It's a biopolymer matrix, filled with a unique blend of fructose and glucose (ratio of 0.8:1) which enables uptakes of up to 100 grams of carbohydrates per hour.

## Vegan Gummy Bar

30-g energy bars with a gelatine texture, formulated with a high-quality, organically sourced carbohydrate mix and with pectin, gluten-free, and suitable for vegans. They are easy to chew, digest, and carry. Perfect in both training and competitions, as they help us to keep up blood glucose, giving our body the energy it needs while maintaining a high level of physical performance.

## Race Day Bar **BIKE COURSE**

40-g energy bars, gluten-free and suitable for vegans. Rich in carbohydrates and organic ingredients such as dates, pumpkin seeds, sunflower oil, and raisins, +10 vitamins. They are easy to chew. We increased the amount of figs and reduced dates to control the glycemic index. This means that they provide energy but insulin peaks are reduced. Available in different flavours, with or without BCAAs.
