

SCARBOROUGH LITTLE LEAGUE

Bringing Community Together Through Little League

New sponsorship opportunities available for Scarborough's largest non-profit youth athletic program

Six days a week from April through June, the crack of the bat can be heard from six fields across four different athletic complexes in the town of Scarborough. Little League is a rite of passage for many kids – along with learning how to play the game, these athletes learn life skills such as teamwork, focus, determination, and sportsmanship that will help them grow. As the largest municipally run non-profit, Scarborough Little League has grown to be one of the largest leagues in Maine, with more than 550 baseball and softball players ranging in age from 4-14.

In 2021, after years of fundraising efforts and partnerships, Scarborough Little League partnered with the town to make \$50,000 of infrastructure and facility improvements. These desperately needed improvements made three of our fields safer and more playable – but there is still more work to be done. Our registration fees cover uniforms, equipment, and insurance costs, but not long-term investments in our facilities, fields and dugouts – that's where you come in.

As we look forward to 2023, we are hoping to continue to raise funds so we can rehab our remaining three fields and fix our dugouts and batting cages, which are also in need of safety improvements and upgrades.

You can support our volunteer-run organization by choosing to be a sponsor of our league. Your donation will not only help us but will be a powerful tool to market your business and demonstrate your commitment to this community.
