Artwork Specifications for Digital Ads are Below:

Thank you for advertising with Lake Travis Booster Club. We want to give you the highest quality professional ad on our scoring table and video boards. Please send your artwork to ltvb.sponsors@gmail.com

Digital Ad Specification

Pictures should be at the highest resolution possible. We suggest a minimum standard image resolution of 1024 x 768, or higher. Please send the image in JPEG, PNG, PDF or Photoshop format. The original Photoshop image format would be the best.

Your digital ad will be 43.6” inches wide by 24.5” high. Think of your advertisement as a billboard. The best ads have a large clear photo with large text and a minimum number of words. You want to make sure someone sitting 100ft away can see it clearly. Stick to clean, crisp sharp graphics and text.
