

USoA
Annual Reports / Catch Records

Feb 1st, 2021

Fellow Officers/USoA Members,

No requests were received for any potential record(s) in 2021, or the first half of 2022.

On another note, I would like to suggest that the records be put on line and included on the USOA website.

Even though I have not had any interest for a possible record for several years, the records would at least be available for all to see.

Annual Reports / Midwest Region

Fellow Officers/USoA Members,

To my knowledge, there was no official activity in 2020 as members of the MDC.

Several individual members did however compete in regards to competition relating to the U.S. Nationals or world competitions, local or regional competitions
