

Pacer Football F.A.M.I.L.Y.,

I am incredibly thankful we have made it thus far without any cancellations due to COVID-19 issues. That being said, Dominican HS, our scheduled opponent for Friday night's varsity game, has cancelled the game due to what I believe was a positive test for one of their players. We have been searching and will continue to search to find a replacement game. I would ask all of you to be both patient and flexible as try to figure things out this week as last week there were teams scheduling Friday replacement games as late as Thursday. I believe there were even a few matchups that were created Friday morning and then played that very night.

We also have the added bonus of two days off of school this week as our 1st quarter ends on Wednesday and we have teachers' conference (virtually) on Thursday. So, here is the link to this week's [News and Notes](#) with the understanding that things can/might/probably will change. I will do my best to communicate any and all changes via email and Google Classroom (for the players).

Please contact me with any questions or concerns. Have a blessed week and Go Pacers!
