FUNDamentals practice plans

Preferred method of training – The Station concept

The activities provided illustrate how stations can be used during Grassroots practices. During the practice players will spend an allotted time at each station having fun, developing specific skills and qualities before moving onto the next station. By using station work we create an environment where players are continually motivated and that they are continually challenged.

In the following activities players will travel through 4 stations. In all sessions players will travel through 4 stations. In these examples one station focuses on general movements, one station on soccer coordination with the ball, one station on soccer technique and the final station focuses on a small sided soccer game 3v3, 4v4 or 5v5 which includes the retreat line.

All sessions take a holistic approach to developing our youth. Each game and activity will focus on 4 main areas of the child's development; these include social/emotional, physical, physiological and also technical

Total Practice time 45 minutes as per the Recreational and Development Matrix

How the preferred training model works

If working with a larger group organize players into groups of 8-10. Each station has a coach who will lead that specific station for the session. Players rotate every 8-10 minutes with a 2 minute break in between each station to have a water break and move to the next station.

If working with a smaller group you can still have the 4 stations and players will move together through all 4 stations until all are complete.

5V5 with the Retreat line.

Organisation. Players play 5v5 on a 35mx25m field. the Retreat line is located at the half way line. 2 goals are located at each end

Procedure. Once the ball goes out for a goalkick or the goalkeeper has control of the ball the opposition must retreat behind the retreat line. Once the player receives the pass from the goalkeeper the game is live.

When scoring a goal team in possession has two goals to score on.

If you have odd numbers you can have the extra player become a neutral player in the game who plays for the team in possession.
