

**Updated on 2/1/2021**

The purpose of this document is to promote the health of Bill Gray's Regional Iceplex's guests, athletes, coaches, and staff through a safe return to the rink under certain controlled conditions--relying on the core principles of strict physical distancing, reduced use of shared objects and spaces, rigorous cleaning and disinfection procedures, and the prioritization of measures to prevent the spread of the coronavirus.

This reopening plan incorporates all mandated measures as dictated by New York State, in addition to all recommended best practices contained within such guidance from governing organizations, including;

1. [Reopening New York - Sports & Recreation Master Guidelines](#) (NYS/ESD)
2. [Reopening New York - Sports & Recreation Summary Guidelines](#) (NYS/ESD)
3. [Interim Guidance for Sports & Recreation During COVID-19](#) (NYS/ESD)
4. [Considerations for Youth Sports](#) (CDC)
5. [Cleaning and Disinfecting Your Facility](#) (CDC)
6. [Guidance for Cleaning and Disinfection of Public and Private Facilities for COVID-19](#) (CDC)
7. [Guidance for Cleaning and Disinfection of Public and Private Facilities for COVID-19](#) (DOH)
8. [Guidance on Preparing Workplaces for COVID-19](#) (OSHA)
9. [Returning to the Rinks](#) (USA Hockey/US Figure Skating)

## **KEY PROTOCOLS FOR ICE HOCKEY TEAMS**

*In response to games resuming as of 2/1/21*

### **Entrance & Exit Time Restrictions**

Participants will be able to enter the complex 20 minutes prior to their scheduled time and must exit immediately following the completion of their ice session (no later than 15 minutes).

Participants/players that are 17 years of age and under are permitted to have **no more than two (2) spectators** join them at the facility. Spectators are required to arrive and check in with the participant at the front desk. Spectators that arrive after a participant has checked in will not be permitted entry.

Adult participants/players are not permitted to have a spectator accompany them on site.

For the health and safety of all guests, we encourage participants/player who are able and willing to be unsupervised, to not bring spectators to the facility when possible.

### Masks

Masks will be required for all who enter the building and must be worn at all times (other than for players—only while on the ice for an activity). Spectators, coaches, and on-ice personnel are required to wear a mask at all times when in the facility.

### Locker Rooms

Locker rooms will be made available for most activities, but only within the framework of NYS Guidelines. Occupancy for each locker room is set for a maximum of 10 people (any combination of players and/or coaches, with 10 being the maximum allowable in any locker room at once).

Directly outside of each locker room is additional seating (socially distant chairs), which are to be used as overflow changing areas when a team has more than 10 room occupants.

Masks must be worn at all times when in locker rooms, and for all youth hockey activities, a coach/manager must be present at all times to assure proper social distancing and mask usage compliance.

### Physical Distancing

All guests/participants are required to practice physical distancing by standing at least six feet away from other groups while in the facility—lobby areas, viewing areas, standing in lines, using elevators, moving around the property, etc.

***These are a few key areas that pertain to ice hockey teams (coaches, players, staff, players, and families), however we ask that you make yourself familiar with all venue protocols (outlined below).***

## **GUEST HEALTH**

The health and safety of our employees and guests is our number one priority.

### Entrance & Exit

Entrance and exit signage will be present at the main entrance of the facility, designating separate entrance and exit doors.

### Entrance & Exit Time Restrictions

Participants will be able to enter the complex 20 minutes prior to their scheduled time and must exit immediately following the completion of their session.

Participants/players that are 17 years of age and under are permitted to have **no more than two (2) spectators** join them at the facility. Spectators are required to arrive and check in with the participant at the front desk. Spectators that arrive after a participant has checked in will not be permitted entry.

Adult participants/players are not permitted to have a spectator accompany them on site.

Even though we are allowing spectators at limited capacity as we reopen, for the health and safety of all guests we encourage participants who are able and willing to be unsupervised to not bring spectators to the facility when possible.

### Guest Screening Protocol

All visitors entering the Iceplex are strongly encouraged to take part in a screening process prior to being admitted access in the facility. This will be done through a contactless system, through use of a handheld phone (as a means of answering screening questions). This is done for the sole purpose of contact tracing, in the event a patron of the Iceplex has tested positive for COVID-19.

### Physical Distancing

All guests/participants are required to practice physical distancing by standing at least six feet away from other groups while in the facility—lobby areas, viewing areas, standing in lines, using elevators, moving around the property, etc.

### Masks

Masks will be required for all who enter the building and must be worn at all times (other than for players—only while on the ice for an activity). Spectators, coaches and on-ice personnel are required to wear a mask at all times when in the facility.

### Physical Layouts of Facility

Guest seating, locker rooms, player benches, performance training equipment and other physical layouts will be arranged to ensure appropriate distancing.

### Hand Sanitizer

Hand sanitizer dispensers, touchless whenever possible, will be placed at key guest and employee entrances and throughout the facility including the main lobby, each rink entrance, food service, locker room hallways and performance training.

### Signage

There will be CDC approved health and hygiene reminders throughout the facility.

- *Cover their nose and mouth with a face covering*
- *Properly store and, when necessary, discard personal protective equipment (PPE)*
- *Adhere to physical distancing instructions*
- *Floor distance markers denoting spaces of six feet in all common areas*
- *Report symptoms of or exposure to COVID-19, and how they should do so*
- *Follow hand hygiene and cleaning and disinfection guidelines*
- *Follow appropriate respiratory hygiene and cough etiquette*
- *Remain home if not feeling well*

### Ice Schedules

Added time between all on-ice sessions has been incorporated in the facilities master schedule, as a means of staggering traffic flow in and out of the facility, and to allow sufficient time to clean/sanitize rink and facility specific areas.

### On Ice Distancing

All on-ice activities must ensure a 6 foot distance between individuals at all times, unless safety or core activity (e.g. practicing, playing) requires a shorter distance. If a shorter distance is required, individuals must wear face coverings, unless players are unable to tolerate such a covering for the physical activity (practicing, playing); provided, however, that coaches, trainers, and/or other individuals who are not directly engaged in activity are required to wear face coverings.

### Additional On-Ice Protocols

On-ice participation capacities will be restricted as to conform with the capacities outlined within state issued guidance.

Spitting on the ice, or in player areas is not permitted, as is the use of chewing tobacco, or other similar products.

Rental customers must provide Bill Gray's Regional Iceplex a full roster of all on ice participants prior to arrival to the facility, and prior to taking the ice for all rented ice sessions.

### Queuing

Any area where guests or employees queue will be clearly marked for appropriate physical distancing. This includes the information desk, and lobby areas. This process will guarantee adequate social distancing at all times

### Locker Rooms

Locker rooms will be made available for most activities, but only within the framework of NYS Guidelines. Occupancy for each locker room is set for a maximum of 10 people (any combination of players and/or coaches, with 10 being the maximum allowable in any locker room at once).

Directly outside of each locker room is additional seating (socially distant chairs), which are be used as overflow changing areas when a team has more than 10 room occupants.

Masks must be worn at all times when in locker rooms, and for all youth hockey activities, a coach/manager must be present at all times to assure proper social distancing and mask usage compliance.

### Player Benches

Additional seating has been installed in both Home and Visitor benches on all ice rinks that are currently in use. This was done to provide additional seating for players, allowing for proper social distancing while seated in players benches.

### Pre-Purchase & Pre-Registration

Adjustments to typical programming activities will be in place to allow for a pre-purchase/pre-registration for all Iceplex hosted activities (ie; Stick and Puck, 'Learn To' Programs, etc.).

Walk-in purchases will no longer be permitted, therefore all customers attending any Iceplex hosted activity must make their purchase in advance through the Iceplex website. All guests are required to have a physical or digital copy of their pre-purchase ticket with them so it can be scanned for contactless entry at the front desk of the Iceplex.

#### Front Desk Operations

Limited front desk operations will be in use upon reopening. A customer service representative will be assigned to front desk shifts, however adjustments to standard operations procedures will be in effect to assure the safety of both guests and staff.

#### Case Notification

If we are alerted to a presumptive case of COVID-19 at the Iceplex, we will work with the Monroe County Health Department to follow the appropriate recommended actions.

#### Guest Elevators

An employee will be present to sanitize the button panels at regular intervals, at least once per hour. Elevators will be available for those with physical disabilities only.

#### Lost and Found

No lost and found services will be provided at this time, in accordance with recommendations provided by the CDC.

#### Vending Machines

A limited number of vending machines will be available at this time, and will only be located in the upper lobby area (until further notice)

#### Iceplex Tenant Operations

All tenants that operate individual businesses within the Iceplex will adhere to specific guidelines set forth for their respective industries.

### **EMPLOYEE HEALTH & RESPONSIBILITIES**

Employees are vital for an effective sanitation and health program.

#### Staff Training

All employees will receive training on COVID-19 safety and sanitation protocols, best practices, and state mandated protocols (as directed by the CDC, NYSDOH, and OSHA).

#### Additional Employee Policies/Rules

Iceplex staff has been trained and educated in all guidelines provided by New York State, as dictated through the Reopening New York – Sports & Recreation Guidelines (and referenced guidelines contained therein).

#### Employee Health Concerns

Our employees have been instructed to stay home if they do not feel well and are instructed to contact a manager to report any symptoms. Employee temperatures will be taken upon entering the building, in addition to undergoing a pre-shift screening process that will be conducted prior to the start of each shift (for all employees).

### **Masks & PPE**

Employees will be required to wear a face covering, reminded not to touch their faces and to practice physical distancing by standing at least six feet away from guests and other employees whenever possible.

### **Hand Washing**

Correct hygiene and frequent handwashing with soap is vital to help combat the spread of viruses. All employees have been instructed to wash their hands, or use sanitizer when a sink is not available, every 60 minutes (for 20-seconds) and after any of the following activities: using the restroom, sneezing, touching the face, blowing the nose, cleaning, sweeping, mopping, smoking, eating, drinking, entering and leaving the complex, going on break and before or after starting a shift.

### **Employee Specific Signage**

Signage will be posted throughout the facility reminding employees of the proper way to wear, handle and dispose of masks, use gloves, wash hands, sneeze and to avoid touching their faces.

### **Cleaning Products and Protocols**

The Iceplex uses cleaning products and protocols which meet or exceed EPA/CDC guidelines and are approved for use and effective against viruses, bacteria and other airborne and blood borne pathogens. We are working with our vendors, distribution partners and suppliers to ensure an uninterrupted supply of these cleaning supplies and the necessary PPE.

### **Public Spaces and Communal Areas**

The frequency of cleaning and sanitizing has been increased in all public spaces with an emphasis on frequent contact surfaces including, but not limited to, information desk counters, tables, chairs, player benches, locker rooms, elevators and elevator buttons, door handles, public bathrooms, ATMs, stair handrails, performance training equipment, dining surfaces and seating areas.

### **Front of House**

The frequency of cleaning and sanitizing in high traffic front of house areas (with an emphasis on computers, point of sale systems, shared objects, etc.) will be in effect. In addition, hand sanitizing stations have been installed in all high traffic employee areas.

### **Back of House**

The frequency of cleaning and sanitizing in high traffic back of house areas (with an emphasis on the ice resurfacers, mechanical equipment, on-ice equipment, cleaning/janitorial equipment and hand tools) will be in effect. In addition, hand sanitizing stations have been installed in all high traffic employee areas.

### **Shared Equipment**

Shared tools and equipment will be sanitized prior to the first use and after each subsequent use. This includes phones, radios, computers and other communication devices, payment terminals, kitchen implements, engineering tools, cleaning equipment, keys, time clocks, scoreboard counsel and all other direct contact items used throughout the complex.

### Physical Distancing

Throughout the Iceplex we will meet or exceed state and local health authority guidelines on proper physical distancing.

## **AREA SPECIFIC SANITIZATION PROCESSES/POLICIES**

Enhanced cleaning and sanitation measures will be taken, in accordance with guidance from the CDC, NYSDOH, and OSHA. Additional protocols are under review and will be added/modified as developed

### Public/Lobby Spaces

The following will be sanitized at increased frequencies;

- Guest facing counters
- Door handles
- Elevator buttons
- Table tops
- Chairs and fixed seating
- Player benches
- Floors
- Handrails
- Restrooms

### Locker Rooms

The following will be sanitized at increased frequencies;

- Player benches
- Floors
- Stick racks
- Doors and Door Handles
- Queuing area

### On-ice/Player Benches/Rink Entrance Doors

The following will be sanitized at increased frequencies;

- Player benches
- Bench floors
- Rink entry doors
- Player seating
