

COMMUNICATION TREE - WHO TO CONTACT

WBSC welcomes any questions, comments & concerns regarding our program, as we are always striving to do better! In case you need to reach out to someone we have created this document to help you reach the right person to answer your questions or address your concerns.

Please keep in mind that many questions are answered in our WBSC Handbook, which is updated annually and provides important information pertaining to policies, program structure, and each age level. We do recommend looking through the handbook first as many questions can be answered through there.
