

New England Knights Receive Automatic Bid into E9 Hockey League:

Lovell Hockey is excited to announce that the New England Knights have been granted full member status in the E9 Hockey League!

Established in 2013 with seven teams, the New England Knights have grown to eighteen teams entering the 2020-2021 season. The Knights have seen growing success with teams in the E9 BHL in recent years, and the program looks forward to building on that success throughout every level.

The New England Knights teams competing in the E9 will start with the 2014 birth year and continue through the 2007 age bracket. Additionally, all of the following teams will also be participating in the E9:

- U10, U12, U14, and U16 girls full season teams.
- U15, U16, and U18 full season midget programs.
- U15, U16, and U18 split season teams

Joe Lovell, Director of the New England Knights, commented: "Our goal at Lovell Hockey is to develop players to reach their maximum potential, and we firmly believe that participating in one of the country's most competitive and successful leagues, such as the E9, helps us to achieve this. The New England Knights are particularly grateful for the hard work and dedication of our staff, particularly Chris Penza, who has worked for Lovell hockey for 15 years, and Rob Morrison, who has been a key influence in building this New England Knights program. I'd also like to acknowledge the contributions of all of the parents, players, and coaches involved with this organization over the last eight years. All of us at Lovell Hockey are extremely proud of the Knights achievements!"

The Knights teams participating in the E9 will be playing out of the Raynham IcePlex, which boasts a full pro shop run by "The Wizard" Rich Lovell Sr. and a comprehensive off-ice training facility.
