
Fencing World Championship Individual Medalists by Year

1921 European Championships (Paris, FRA - 1921.VI.10-11) Nations: 8

Prior to 1921 there were a number of competitions that called themselves World Championships. These were usually challenge matches between two fencers each or both of which called themselves world champions. Prior to the establishment of the Federation Internationale d'Escrime (FIE) in 1913, however, there was no international body to sanction a real world championship. It was not until after World War I and the 1920 Olympic Games, though, that the FIE finally sanctioned a championship. In these early championships, each nation was allowed to enter a maximum of eight fencers.

From 1921 through 1936 (except in the Olympic years of 1924 and 1928) the FIE sanctioned yearly competitions called the "Championnats d'Europe" ("European Championships"). In spite of their name, non-Europeans were allowed to compete in them and so these competitions are considered to be the first world championships for fencing. It was not until 1937 that the FIE officially changed the name of the competitions from "Championnats d'Europe" to "Championnats du Monde".

Men's Epee Individual (1921.VI.10-11) Nations: 8

The European Championships were held as one of the events during the Grande Semaine des Armes de Combat which ran from June 5 to 12 and included the French national fencing championships and other fencing events as well as shooting events. Only one European Championship event was contested: men's epee individual. Fencers from Belgium, Denmark, France, Great Britain, Netherlands, Romania, Sweden, and Switzerland competed. The format of the event was 3 rounds of pools. The first round was three pools with six qualifying from each pool and the second round was two pools with six qualifying to a final pool of 12. Bouts were for one touch in the first two rounds and for two touches in the finals. Lucien Gaudin was undefeated in the final with only two touches scored against him.

1931 European Championships (Vienna, AUT - 1931.V.27-VI.4)

Men's Epee Individual Entries: 68

Because of dissatisfaction with the judging during the men's epee event, the Italian team withdrew all of its epee fencers during the final round and threatened to boycott all future international competitions. A special congress of the FIE was held on 2 November 1931 to make peace with the Italian fencing federation. It had become obvious that an electrical scoring system had to be developed to minimize disputes about refereeing. A successful demonstration of an electrical scoring system was given at the Congress but some details had to be worked out and the equipment manufactured in enough quantity to become widely available and for the fencers to become familiar with its use.

Each nation was allowed a maximum of six fencers in the individual events. The team events consisted of four-person teams.

Men's Epee Individual (1934.VI.26-27) Entries: 48 Nations: 11

The final round was a pool of 12 fencers. Because of the newness of the electrical equipment, on the average, only two machines at a time were in working order and so the final on the second day did not end until 1:30 in the morning. There was also a small commotion about an hour before the end when the epee of one of the Italian fencers was confiscated because the two wires inside the bell guard had bare spots that allowed touches to be registered without the point being depressed. Two fencers were tied for third in the final pool with identical records. Because the final ended so late, it was decided not to hold a barrage but to declare them tied for third.

1935 European Championships (Lausanne, SUI - 1935.VI.19-29)

Grounded pistes were used for the first time and the Hungarians demonstrated an electric scoring machine for foil. The electrical epees being used would register touches made with as little as 150 grams of pressure. At the FIE Congress in April 1935, the rules were changed to require that the pressure be at least 250 grams as of January 1936.

Men's Foil Individual (1935.VI.20-21)

The final pool of 10 fencers lasted 7½ hours and ended with four fencers tied with seven victories. Because it was now too late to hold a fence-off of the four fencers and Lemoine had travel plans that required that he leave early the next day, the top four were declared tied for first by the Jury of Appeal.

1937 Senior World Championships (Paris, FRA - 1937.VII.19-30) Nations: 20

The only championship that had been held in 1936 was women's foil team because it was not on the program of the Olympic Games in Berlin. After the Olympic Games of 1936, the Italian government of Benito Mussolini announced a program of cash rewards for any Italian athlete who won at an Olympic or World Championship. The Italian fencing federation requested that the "European Championships" be henceforth named "World Championships". The FIE approved this request and the first competition to be officially called a World Championships were held in 1937 at the Palais des Sports in Paris with Austria, Belgium, Bulgaria, Czechoslovakia, Denmark, Egypt, France, Germany, Great Britain, Greece, Italy, Luxemburg, Monaco, Netherlands, Portugal, Romania, Sweden, Uruguay, United States, and Yugoslavia competing.

For this World Championship and subsequent ones, the FIE passed a rule that each country was allowed to enter a maximum of six fencers in the individual events of each weapon. The finals of the foil and sabre events would have eight or nine fencers and for epee, nine or ten.

The final round was a pool of 10 fencers with 2 non-Europeans. Sands of USA finished 5th and Haro Oliva of Mexico 6th. Because of a 3-way fence-off for the gold medal in the epee team event, it did not end until 03:30 in the morning on the first day of the individual event and may have been the reason why all 4 members of the victorious Italian team were eliminated in the first round of the individual event. Schmetz was undefeated in the finals.

1939 Senior World Championships (Merano, ITA - 1939.VIII.31-IX.14 [canceled])

The 1939 World Championships were scheduled to be held in Merano, Italy, from 31 August through 14 September but were canceled shortly before they were scheduled to start because of increasing hostilities in Europe. No events had been scheduled for August 31 because of an FIE Congress on September 5 or 10 because the tournament organizers planned sightseeing tours.

No World Championships were held between 1939 and 1946 because of World War II and reconstruction.

A tour and banquet were held on July 4 and so there was no fencing on that day. In 1947, the Egyptian sabre team's bronze medal was the first time a nation outside of Europe won a medal in the fencing World Championships.

1949 Senior World Championships (Cairo, EGY - 1949.IV.10-24)

At the FIE Congress in March of 1939, Egypt had been designated as the host country for the 1941 World Championships but these were not held because of World War II. The only championship that had been held in 1948 was women's foil team because it was not on the program of the Olympic Games in London. The 1949 World Championships were the first to be held outside of Europe. Direct elimination was used for the first time but was considered unsuccessful and the 1950 Championships resumed using only pools.

The format of the individual events was to be pools until 16 fencers remain and then direct elimination with no fence-off for third place except that a bout to decide third place was held in women's foil because of the small number of women's foil entries. The bouts with men's foil and sabre were for 5 touches, women's foil 4 touches, and men's epee 3 touches. The DE matches would be 2 out of 3 bouts.

A women's foil team event was not held. Only 12 women showed up to compete in the individual event and France and Italy were the only two nations with three women.

1950 Junior World Criterium (Nice, FRA - 1950.IV.1-2) Entries: 25 Nations: 5

At the FIE Congress on 5 March 1948, the French proposed that a World Championship be held for fencers under 21 years of age. The proposal was rejected because "it was felt undesirable to multiply World Championships". The first FIE junior championships were held in 1950 with men's foil individual being the only event contested. 25 fencers competed from France, Italy, Luxembourg, Monaco, and Switzerland. Initially the age limit for these junior championships was 21. These competitions were originally called "Criterium Mondial des Jeunes" (or "Junior World Criterium") to satisfy those who did not want another World Championship. It was not until 1964 that their name was changed to "Championnats Mondiaux des Jeunes" and they officially became World Championships. The final rounds were direct elimination with no fence-off for third.

1950 Senior World Championships (Monte Carlo, MON - 1950.VII.10-22) Nations: 17

At the FIE Congress in June 1949, three changes had been made to epee: the pressure required to register a touch was increased from 250 to the present 750 grams, the time difference to register a double touch was reduced from 1/15 to 1/25 of a second, and double touches were again recorded against both fencers rather than being discarded. The discarding of double touches had been in effect for only one year.

Women's Foil Individual (1950.VII.13-14) Entries: 12

In women's foil individual there was a tie for first place in the final pool of eight. Garilhe and Müller-Preis both had one defeat but in her final bout Müller-Preis fell and tore a ligament in her leg that had been injured in the team event. In the barrage bout for first place, Müller-Preis tried to fence while standing on one leg but after some exchanges fell to the strip and was able to stand up only after two attempts and obviously in great pain. The captain of the French team intervened and asked Garilhe to leave the strip and refuse to continue. A jury of appeal ruled that this was an exceptional circumstance not covered by the rules of fencing, annulled the barrage bout, and declared the two women co-champions.

Men's Epee Individual (1950.VII.17-18) Entries: 60

The final pool of ten was unusual in that only two Italians (the Mangiarotti brothers) and one Frenchman (Guerin) got in. For both the foil and sabre, the finals of eight contained just Italians and Frenchmen. Luchow of Denmark won with eight victories while none of the other finalists won more than five. There was an exact tie in both victories and touches for second place and the rules at that time did not specify a means of resolving such a tie.

1953 Senior World Championships (Brussels, BEL - 1953.VII.15-29)

The only senior world championship that had been held in 1952 was women's foil team because it was not on the program of the 1952 Olympic Games in Helsinki. An opening ceremony was held on July 15 and a closing ceremony on July 29. No fencing was held on July 22.

Participation numbers are for pre-entries and so are probably greater than the number of fencers who actually competed.

The senior World Championships was the first to be held in the western hemisphere. The time-limit for bouts was reduced to 5 minutes for men and 4 for women starting with this Championships. The Egyptian foil team died in a plane crash over Atlantic Ocean on the way to the Championships. Six fencers of Hungarian origin who had left Hungary after the Hungarian revolution, petitioned the FIE to be declared stateless so that they could fence for the countries where they currently lived. The FIE approved the petitions of two sabre fencers to fence for the United States and one epee fencer to fence for Canada. The Hungarian delegation originally announced that they accepted this decision but the Hungarian government instructed them to withdraw their entries from the sabre and epee individual events.

1997 Veteran World Championships (Cape Town, RSA - 1997.VII.13)

A Veteran World Championships was held but only in men's epee and in three age groups 40-49, 50-59, & 60+. This competition was initially planned as demonstration events at the Senior World Championships but at some time they started being referred to as the first Veteran World Championships in Men's Epee. The article listing the events' results in L'Escrime magazine calls it a Veteran World Championship and so I'm treating it as such but there is some controversy as to whether this really was one.

Men's Epee 40-49 Entries: 10

This was the only time that a 40-49 age group has been held at a Veteran World Championship.

2014 Veteran World Championships (Debrecen, HUN - 2014.X.21-26)

Veteran team test events were held the previous year. This year they were held as official world championships for the first time. Each team had one fencer in each of the three age categories with one optional reserve in each category. The fencers in each category fenced only an opposing fencer in the same category with two bouts in each category. Thus two fencers could fence each other twice if the reserve in that category was not used by either team. The matches were in relay format for a maximum of 30 touches with each bout having a 3-minute time limit.
