Privacy protection is important to us. The below describes how we process personal data through your participation in our IRONMAN and IRONMAN 70.3 events ("Events"). World Triathlon Corporation, located at 3407 W. Dr. Martin Luther King Jr. Blvd., Suite 100, Tampa, Florida 33607 ("WTC") is the data controller for these Events. WTC is responsible for, and controls, the processing of your personal data.

What personal data do we collect?
In the context of our Events, we collect personal data about you, which can include name, e-mail address, phone number, address, birth date, place of birth, gender, information on medical conditions and medications, emergency contact information, relay information, and other information you provide during registration. In the course of preparing the Event and during the Event, we might collect other information, such as your registration number and the age group to which you are allocated as well as your performance in the Event.

How do we collect your personal data?
Typically, we receive your personal data from different sources. Most of the personal data we receive comes to us voluntarily from you in the course of registering for an Event. You are free to choose which information you want to provide to us or whether you want to provide us with personal data at all. However, some information, such as information requested in the registration procedure and information collected during the Event, may be necessary for the performance of our contractual obligations in the context of your Event participation. Without providing this personal data, you will not be able to enter into a contract with us by registering for our Events. During the Event we will receive personal data on your performance and on incidences in which you are involved by our service providers.

Why and on which legal basis do we collect and use your personal data?
The reasons for using your personal data may differ depending on the purpose of the collection. We use your personal data to conduct our Events and make your participation in our Events possible, for example by allocating a bib number to you and specifying your race category classification. Most of our Events are part of bigger Event series and are therefore interlinked. By participating in one Event, our athletes can qualify for other Events and accumulate points for our overall rankings. For this reason, personal data collected in one Event (such as the race results and ranking in this Event) will potentially be used for the qualification of other Events and in the context of our overall Event series.

The usage of your personal data may be necessary for our own business interests. For example, we may use some of your personal data to evaluate and review our Events, the demographics of our athletes, our overall business performance (such as Event participation, cancellations, Event related incidents), and to improve and individualize your experience and enjoyment of our Events. If necessary, we may also use your personal data to pursue or defend ourselves against legal claims.

In some cases, we may ask you to grant us separate consent to use your personal data. Where we ask for your consent, you are free to deny your consent and the denial will have no negative consequences for you. You are also free to withdraw your consent at any time with effect for the future. If you have granted us consent to use your personal data, we will use it only for the purposes specified in the consent form. Note that we are obligated to retain certain personal data because of legal requirements, for example, tax or commercial laws, or we may be required by law enforcement to provide personal data on request.

With whom do we share your personal data?
We share your personal data with third-party vendors and other service providers that perform services for us, which may include medical support, Event surveillance, time keeping, services related to the registration and organization of our Events, payment processing, data enhancement services, or fraud prevention. If applicable, such service providers will, by appropriate data processing agreements, be bound to process personal data only on our behalf and under our instructions. If you participate in our Events and have given us consent to do so, we will disclose your bib number, name, e-mail address, and phone number to the Event photographer, who may contact you with photos from the attended Event. Personal data may also be disclosed to third parties as required by law or subpoena or if we reasonably believe that such action is necessary to (a) comply with the law and the reasonable requests of law enforcement; (b) to enforce our legal claims or to protect the security or integrity of our Services; and/or (c) to exercise or protect the rights, property, or personal safety of WTC, our partners, employees, athletes, visitors, or others. The official rankings and information justifying the ranking, plus the Entry registration lists and Event results (which may include your name, gender, age, region, Event race category classifications, and Event bib number), will be disclosed to the visitors of our Events and on our websites, prior to, during, and after Events.

Health information
One of our paramount tasks is to make sure nothing happens to you during our Events. We will therefore monitor you during the Event and share your medical data with our medical teams to help you in case of a medical emergency.

WTC plans to have a medical information station at the Event where an athlete’s friends and family, as well as the media, the press, and the general public, can make inquiries regarding an athlete’s status or location. We feel that this is very beneficial to friends and family members trying to find athletes who have dropped out, been admitted to the Event medical tent, or transported to a local hospital. However, athletes who desire not to have this information released need not consent to the release of this information. If you do not consent to the release of your medical information, WTC and its employees, agents, staff, and volunteers will take steps to prevent the release of such information.

If you wish to obtain more information related to the collection, use, and disclosure of your personal data at the Event or otherwise, please contact privacy@ironman.com.

☐ I acknowledge that I have read and understand the above related to the collection and use of my personal data related to the Events and that I may have certain rights related to the retention and release of my personal data under applicable data privacy laws including, but not limited to, the California Consumer Privacy Act and the General Data Protection Regulation. I agree that if I have questions about the disclosure of my information, health, or otherwise, I will contact WTC.

(MUST CHECK A BOX BELOW BUT THIS CONSENT IS OPTIONAL)

☐ I AGREE TO THE RELEASE OF MY HEALTH INFORMATION
I understand that I have the right to have all information regarding my location, admission to the medical tent, medical condition, or if necessary, transfer to a hospital kept private and not released to any person. I waive this right during the Event and grant WTC, its staff, agents, and volunteers the right to release information on my location and condition if I am admitted to the Event medical tent or transported to a hospital. I understand that should I be admitted to the medical tent or transferred to a hospital that my location and my general condition defined as "being assessed", "stable", or "transported" may be released. I understand that authorizing this disclosure is voluntary and carries with it the potential for an
unauthorized re-disclosure and that information may not be protected by federal confidentiality rules. I understand this election is not required for participation in the Event or to assure treatment by WTC’s medical volunteers.

☐ I DO NOT AGREE TO THE RELEASE OF MY HEALTH INFORMATION
I desire to reserve all rights related to my health information and do not want any information regarding my location or condition to be released upon inquiry.
