You can also watch this short how to video for a more direct way to get to your team on the website: <https://a.cl.ly/KoudJRZO>

Find your day and then find your game that you just scored and click the Final button

You will see a page that contains

You will click there and have a number of options to edit your game.

The main one is Pitcher Stats

KJ TAX & ACCOUNTING, LLC: PITCHER STATS

<input type="checkbox"/>	PLAYED	#	NAME	IP
<input checked="" type="checkbox"/>			Jacob Aldredge	4 0/3
<input checked="" type="checkbox"/>			Collin McGill	2 0/3
<input type="checkbox"/>			Unattributed	0 0/3

- Grant Becker [Add Player](#)

You can add the pitchers from the drop down and then check box that pitcher and enter the Innings pitched. Remember, if they appear in an inning it counts as an inning pitched. So there should never be 1/3 innings in the stats.

ALWAYS make sure you SCROLL to the bottom of the page to SAVE STATS!

This is how your properly scored game along with the innings pitched for your team should look when you are finished. Only one coach from each team needs to enter the score so whoever enters it first is fine. Each coach should always enter your pitchers and their innings pitched though.
