

Norman Minor Hockey is proud to share our plan in supporting the Regional Development Pilot Project being offered by Hockey Manitoba
<https://www.hockeymanitoba.ca/regional-development-pilot-project/>

The program runs from October and March and will be a supplementary program outside of our local association programs. Athletes will continue to register for their regular minor hockey through the HCR.

The focus of the program is on development, growth and participation for all athletes – regardless of their starting point.

MHA's and Leagues must avoid scheduling practices on blackout nights. (listed below)

We are planning on offering weekly development practices that will not conflict with your local association programs. We have monthly development practices organized for team focused development.

Our ID skates will be held in early October. Our plan is to offer Gold, Silver and Bronze teams at all age levels. Evaluations will be held at the ID skate.

Registration forms and Coach applications will be available on Norman Social Media.

Deposit of \$100 (e-transfer info provided on registration form) Program Budget will be set once we know how many players will be involved.

Regional Blackout Dates

Oct 4	Thompson	U13	ID Skate
Oct 5	The Pas	U15	ID Skate
