Welcome to the 2019 ENPL National Playoff! SCOUTINGZONE will once again be the official scouting/recruiting partner of the ENPL, which will connect players and college coaches prior to and onsite at the events. SCOUTINGZONE is the #1 recruiting software used by college scouts from all divisions across the country.

It is a **tournament requirement** for all participating teams & players to be registered in SZ. College coaches count on us to deliver accurate roster information, so it is imperative you follow instructions below once qualification occurs.

What's in it for your team?

- Increase players' opportunity to be recruited, SZ is the most widely used recruiting platform by all divisions of college soccer coaches.
- SZ is the only way college coaches will be receiving player info - If you are not in SZ, you will NOT be visible to college coaches – don't miss your opportunity to be recruited!
- Utilize contacts, planning and outreach resources provided by SZ to connect to top programs and scouts.
