

Adopted: February 17, 2025

In accordance with established bylaws, the boundaries for chapter participation were mutually discussed and determined by the chapter on February 17, 2025. The following guidelines shall govern boundary considerations:

1) Boundary Prioritization

- a) Chapter boundaries shall be primarily determined based on elementary and middle school attendance zones.
- b) The primary objective of boundary considerations is to maintain equal and competitive chapters.

2) Chapter Assignment

- a) Players shall participate in the chapter associated with the school they are currently attending.
- b) Players enrolled in private, hybrid home school, or charter schools may choose to play for:
 - i) The chapter associated with their school's designated boundary (preferred), or
 - ii) The chapter in which they reside, provided there is mutual agreement between the affected chapters.
- c) Any fully home schooled will play for the chapter that they reside in.

3) Grandfather Clause

- a) A player who participated in a chapter the previous year shall have the option to continue playing in that chapter, regardless of boundary changes.
- b) Any siblings of a returning player shall also be permitted to play in the same chapter their sibling is currently playing in under this provision.

The following is the list of the new boundaries according to schools associated with each Chapter.
