

# Return to Play Standards

## Michigan Amateur Hockey Association 2020-21

Revised September 24, 2020

The Michigan Amateur Hockey Association (MAHA) is initiating the following 2020-21 Return to Play Standards as a protocol to ensure the safety and well-being of all ice hockey participants and spectators, while allowing ice rinks to safely rent ice to our members during Phases 4-6 of the Michigan Safe Start Plan. It is designed with the recommendations of the Center for Disease Control (CDC), the Michigan Department of Health & Human Services, as well as Executive Orders 2020-175, 176, & 180 signed by Governor Whitmer. Furthermore, in collaboration with the U.S. Ice Rink Association and U.S. Figure Skating, USA Hockey published a comprehensive [‘Returning to the Rinks’](#) document containing additional guidelines and recommendations successfully put into practice by many of our USA Hockey affiliates nationwide. Collectively, this provides us a path to safely operate while minimizing risks tied to COVID-19.

NOTE: This policy is not intended to replace local and state government orders or safety policies and procedures put in place at your ice rink facility. This policy is not intended for the operation of other rink entities including, but not limited to: concession stands, open skating sessions, birthday parties or other higher-risk in-rink activities that are not provided for in the current Executive Orders.

## MAHA

- All participants in MAHA sanctioned on-ice activity must be registered with USA Hockey for the 2020-21 season
- The MAHA requires that all associations, teams, players, coaches, officials and volunteers maintain full compliance with all SafeSport policies, including mandatory training and certification
- The MAHA requires that all coaches, employees, volunteers, and other adults involved must complete an online Concussion Awareness training program, with re-certification every three years as required by State law
- The MAHA will provide educational materials, on the signs/symptoms and consequences of concussions, to each athlete and parent/guardian and obtain signed acknowledgements that the information was received.
- The MAHA will not prevent teams from traveling out-of-state for competition; however, the MAHA requires that those teams complete the Interstate Travel Notification Form to support COVID-19 contact tracing
- The MAHA requires that all teams, traveling out-of-state for hockey activity, will adhere to all local and state government guidelines for youth sports participation in that state. Likewise, the MAHA will require all out-of-state teams, entering Michigan for hockey activity, to adhere to all local and state government guidelines for youth sports participation in Michigan
- The MAHA will initiate disciplinary action without delay for any team, association, volunteer and/or tournament host that is NOT in compliance with USA Hockey policies, MAHA policies, and the laws, rules and policies established by the local government and health authorities

## ASSOCIATIONS

- Players or coaches with any COVID-19 risk factors or illnesses SHOULD NOT participate in any on-ice activity. Any player, coach or spectator exhibiting signs or symptoms of an illness SHOULD NOT be in the facility at any point. Furthermore, any player, coach or spectator awaiting results from a COVID-19 test SHOULD NOT be in the facility until a negative result has been confirmed
  - Each association and team should have an emergency plan for any positive COVID-19 cases that arise
  - All associations should designate a person or group, to serve as a liaison with your ice rink facility, as well as notifying all applicable parties if a positive test is confirmed

## ASSOCIATIONS (continued)

- All teams should designate a person who will be responsible for responding to COVID-19 concerns, as well as notifying all applicable parties, regarding positive COVID-19 cases. Contact information for these individuals should be accessible to all coaches, volunteers and families
- If a case is reported to any team, and/or association liaison, it should immediately be reported to all applicable parties including association leadership, rink management, the Michigan Amateur Hockey Association (MAHA), as well as local health officials
- If a positive test is confirmed:
  - Confidentiality of the individual must be maintained in accordance with the Health Insurance Portability and Accountability Act (HIPAA), the Americans with Disabilities Act (ADA) and any other corresponding state laws
  - Notify any teams or players that shared ice sessions with the infected player over the previous 14 days
  - Notify any opponents or teams scheduled to practice or compete with the player's team over the upcoming 14 days
  - Pause team activities until appropriate contact tracing, reporting to all applicable parties, and consultation with local health officials on next steps has been achieved. This includes any out-of-town and/or out-of-state tournaments and events that may occur within this timeframe
  - Teams should not be penalized for forfeiting games due to COVID-19 concerns
- Know your facility's safety measures and require all members to follow them. Some of these procedures will include:
  - cleaning/disinfecting practices and schedules
  - online payment options
  - building entrance and exit routes
  - arrival and exit timing
  - locker room availability
  - social distancing measures
  - spectator policy
  - use of face coverings/masks in facility
  - screening required before entry

## RINK OPERATORS

- Rink operators are expected to maintain compliance with operational guidelines, as summarized in the following Executive Orders:
  - [Executive Order 2020-175 \(September 3, 2020\)](#)
    - Workplace Safeguards (Section 1, pgs 2-4)
    - Public Accommodations (Section 12, pgs 14-15)
    - Sports and Exercise Facilities (Section 13, pgs 15-16)
  - [Executive Order 2020-176 \(September 3, 2020\)](#)
    - Public Accommodation Restrictions (Section 3e, pg 3)
    - Organized Sports (Section 7, pg 5)
- Rink operators are expected to notify the MAHA of member programs not complying with these Return to Play Standards. Likewise, local associations and member programs are expected to notify the MAHA of rink operators in non-compliance as well. It is everyone's job to keep participants safe at rinks available for play

## MEMBERSHIP

- Inform your team, and/or association, designated COVID-19 contact of any participant(s) testing positive, someone in your household testing positive, or any instances of exposure to someone who has tested positive for COVID-19
- If you, or members of your household, are awaiting results from a COVID-19 test, please stay home until a negative result has been confirmed
- If you, or members of your household, are experiencing COVID-19 symptoms, please stay home for a minimum of 10 days since the first appearance of symptoms
  - [When is it safe to leave home, if you have symptoms of COVID-19 or live with someone who does?](#)
- Michigan Economic Recovery Council (MERC) Regional Map:
  - Regions 1-5, & 7: Live spectators are limited to the guests of the athletes, with each athlete limited to two (2) guests
  - Regions 6 & 8: Phase 5 guidelines limit the number of people in a venue to 25% of its maximum capacity or to 250, whichever is smaller. Each rink is considered a separate venue
- Members / families are encouraged to use, support and promote risk mitigation strategies to minimize the potential spread of COVID-19:
  - Personal Hygiene
    - Wash hands frequently, for at least 20 seconds with soap and water or use hand sanitizer with at least 60% alcohol
    - Do not touch your face
    - Cough or sneeze into a tissue or the bend of your elbow, dispose of the tissue and wash/ sanitize hands immediately
  - Social Distancing
    - Maintain social distancing measures (6 ft apart) whenever possible on or off the ice
    - Limit on-ice group discussions so players are not in close proximity for extended periods of time
    - Do not use benches during practice sessions
    - Discourage unnecessary physical contact, such as high fives, handshakes, fist bumps, or hugs
  - Personal Protective Equipment
    - Players are required to wear a facial covering when entering & exiting the facility, while in common areas of the facility, as well as during on-ice participation as required
    - Coaches, parents and spectators shall all wear a facial covering at all times in the facility
    - Do not share water bottles. Mark them clearly so you know which one is yours
    - Players should bring their own hand sanitizer
    - Players should clean and disinfect gear after each use
    - Whether an athlete wears a full cage, full face shield, or a cage-shield combination, your helmet facemask is a personal choice; however, a *full, clear polycarbonate shield or clear shield cage combination may provide a higher level of protection than a traditional cage*

## ON-ICE GUIDELINES

- Players need to maintain 6 feet of separation whenever possible during practices. Coaches should be promoting social distancing on-ice, while keeping players active and engaged at all times

## ON-ICE GUIDELINES (continued)

- Per [Executive Order 2020-180](#), facial coverings are required in hockey. This includes athletes and coaches, at all times during active participation and all times during non-active participation, when 6 feet of physical distance cannot be maintained. In both practices and training sessions, in all MERC regions of the state (including Regions 6 & 8), the Executive Order 2020-180 applies
  - [Executive Order 2020-180](#) does not define 'facial coverings' for purposes of organized sports; however, facial coverings must cover the nose and mouth. The following are not prohibited by Executive Order 2020-180:
    - Traditional cloth / fabric masks (worn on the face, covering nose / mouth)
    - Neck gaiters (worn on the face, covering nose / mouth)
    - Sports masks (worn on the face, covering nose / mouth)
    - [Bauer Concept III Face Shield with a Bauer Splash Guard](#) (splash guard must be properly applied)
    - [CCM Game-On Face Masks](#)
    - Plastic shield that covers the nose & mouth (must be on inside of mask)
  - **NOTE:** Any facial covering attached to a helmet face mask, other than those made by a helmet manufacturer, may affect the HECC certification of the mask. Modification to the helmet face mask clips, which attach the mask to the helmet, are not acceptable alterations and may not be used in participation
  - The MAHA recognizes that coaches may be able to structure certain practices, or portions of a practice, that would permit 6 feet of physical distance to be consistently maintained.
    - Skating-only exercises
    - Individual skills sessions
    - [Video: Principles of "Grid Hockey" – USA Hockey ADM Regional Manager, Roger Grillo](#)
  - During those practices, or portions of a practice, permitting 6 feet of physical distance to be consistently maintained, facial coverings may not be required
  - If 6 feet of physical distancing cannot be consistently maintained, the facial covering requirement must be adhered to
- In-rink capacity would allow for regular game play, with the following conditions:
  - Consistent with current Executive Orders, facial coverings shall be properly worn by coaches, players, trainers, game event staff, on-ice officials, off-ice officials, and spectators at all times during games
    - Players will be sent back to the locker room if they come to the bench without a facial covering
    - A penalty will be assessed if players enter on-ice competition without a facial covering
  - Coaches must maintain physical distancing between players on bench during game play, stoppages, intermissions, etc. Space outside the bench area should be utilized to accommodate social distancing
  - No pre-game or post-game handshakes will be conducted. Stick salutes will be utilized
  - No pre-game or post-game huddles or team pile-ups on the ice
- Any observed violation of facial covering protocols by a team will result in an immediate 3-game summary suspension for the Head Coach, assessed by the MAHA
  - Individual suspensions will also be instituted for non-compliance of facial covering protocols
  - Associations whose member(s) is found in violation, will receive one warning. Additional violations within the association will result in immediate disciplinary action
  - There are no provisions in [Executive Order 2020-180](#) for a medical exception or waiver. This is not a MAHA regulation, and thus the MAHA has no legal authority to waive or modify this Executive Order from the Governor's office

## LEAGUE PLAY

Given the unforeseeable future of the COVID-19 pandemic, where possible, our league partners (i.e. Little Caesars Amateur Hockey League, Adray, MGHL, etc.) should align their divisional play based on the regions established by the Michigan Economic Recovery Council (MERC) map. This will minimize travel requirements for divisional play, as well as minimize potential disruptions in league play caused by fluctuations in COVID-19 cases.

## OUT-OF-STATE TRAVEL NOTIFICATION

The Michigan Amateur Hockey Association (MAHA) must prioritize the safety and well-being of its participants. With this in mind, The MAHA recommends that all teams attempt to minimize their out-of-state travel for competition during the 2020-21 season. All teams traveling outside of Michigan are advised to adhere to local and state government guidelines, as well as CDC regulations, as part of their planning process. Effective immediately, the Michigan Amateur Hockey Association has introduced a mandatory Out-Of-State Travel Notification that all teams are required to complete, before registering for an out-of-state tournament or event. This allows the MAHA to carefully monitor where teams may be traveling for the purposes of contact tracing. In addition, the MAHA can provide critical updates to teams if local, and/or state government guidelines determine the trip would be inadvisable.

## ADULT HOCKEY

Adults will be expected to follow local government guidelines, including the above, as indicated in Executive Orders 2020-175, 176 and 180 signed by Governor Whitmer.

## TEAM TRYOUTS

**TIER I TRYOUTS – YOUTH & GIRLS 12U – 19U** – May be scheduled no sooner than Wednesday, September 9<sup>th</sup>, 2020

**TIER II TRYOUTS – YOUTH & GIRLS 10U – 19U** – May be scheduled no sooner than Wednesday, September 16<sup>th</sup>, 2020

**TIER III – EVALUATIONS / DRAFT** – Evaluation skates may be scheduled no sooner than Wednesday, September 23<sup>rd</sup>, 2020. Team drafts may be scheduled at the discretion of each association.
