

Dear Warriors,

For those of you who are not aware, I am stepping up to take on the head coaching job for the 2020 season. There is a posting for the position, but unless a viable candidate comes along soon, I will stay in as head coach. This will allow us to do a more in-depth search for someone to take over after this season.

Up until last Friday, I had very little information from the district about the requirements to proceed with practices. That information was posted tonight on this Facebook page. I need everyone to read through the document and make sure you understand exactly what is expected from staff, athletes, and families. We will be under scrutiny from Day 1, and if the mandated procedures and policies are not followed, we will lose our privileges to use the district facilities.

Please make sure that you subscribe to, and consult the WLW football website www.wlwfootball.com and calendar for information regarding dates and times for practices for all levels, deadlines, and links to important information. I plan on utilizing the website as a primary source of information.

Practice begins this Monday, June 22. Athletes ONLY need to be waiting in the parking lot by the main stadium entrance. All athletes MUST be prepared to have their temperature taken with an IR thermometer, and MUST have the district health screening Google form completed Monday 6/22 before noon in order to practice. This will be a DAILY requirement for the remainder of the summer.

I am as excited as you are to finally be able to get started preparing for the upcoming season! By Sunday evening, I will share what next week's practice schedule and routines will look like, and what every athlete is responsible for bringing to every practice.

Parents: please be aware of the following:

1. You must stay in your cars at all times. You MAY NOT leave until your athlete passes the temperature testing. Any athlete who does not, must be taken home immediately.
2. Athletes should line up for screening and are required to maintain the 6 foot physical distance.
3. Parents will not be permitted in the stadium per the district.

One important note to parents and athletes: There will be NO water refills available. Athletes must bring a one gallon water jug or equivalent, to hydrate during practices.

Warrior families - let's get ready for another Championship Season!

Coach Weiskopf
