

LOUISVILLE FUTSAL WINTER LEAGUE ('20-'21):

Reimbursement Policy...

The below announcement is in the event the futsal winter league season is cancelled all together...

There will be a reimbursement policy that will go into effect if the futsal winter league season gets cancelled all together. What will be owed back regarding the team fee will be a portion of the team fee paid minus the amount of games played regarding the 7-8 total games owed. 7-8 games total is what has been planned for the Louisville Futsal Winter League season regarding regular season play, along with the end of the season mini tournament (top 4 teams regarding final standings) and placement games (5th place and below regarding final standings).

When it comes to games cancelled due to a team that must be quarantined due to a COVID-19 positive case, reimbursement policy mentioned above will not be used to owe any money back. Teams that must be quarantined due to a positive case regarding COVID will be treated as an isolated situation where efforts to reschedule the game will be attempted when that team quarantined can play again. When it comes to isolated situations where players have to report a positive case regarding COVID, quarantining themselves as a result, the above reimbursement policy will not be used to owe money back to that certain player(s) under these circumstances.

Furthermore, Louisville Futsal is committed to an open door policy when it comes to looking into unique situations regarding the futsal winter league season and what type of unexpected situations could transpire due to COVID. We know that this certain time regarding the pandemic that has affected all of us is causing a lot of uncertainty. LFutsal will do its best to be sensitive over situations that could transpire due to COVID that are unforeseen.

We hope this announcement brings some comfort to all when looking at playing this upcoming futsal winter league season.

Thanks, Rob Iliff (owner, lead coordinator of league play)
