

Hello Parents & Players,

360 Volleyball is aware of the recent changes to the tryouts process and understands the pressure and anxiousness it may cause families. To ease some of the concerns and questions we are implementing additional options to allow everyone a fair opportunity to tryout.

- 360 Volleyball will host Evaluation Clinics for the entire three weeks of the tryout period.
- We will host additional evaluations and clinics to assess players who have prior summer commitments and unable to attend our currently scheduled evaluations and clinics. Please visit our website www.360volleyball.com for additional dates and times. These players and/or parents may also email us at Info@360volleyball.com to set up a separate evaluation time.
- While we cannot guarantee a spot for every player who attends tryouts, we are committed to providing each athlete an opportunity to showcase their skills, talent and desire to be on a 360 Volleyball team.

Please view the current evaluation schedules and parent meetings for all locations below. Thank you for your understanding and patience as we adjust to the new tryout process implemented by the North Texas Region.

Sincerely,

Clarence Nevels
Club Director/Coach
