## **Locker Room Policy**

In addition to the development of our hockey players and enjoyment of the sport of hockey, the safety and protection of our participants is central to the American Special Hockey Association's goals. The American Special Hockey Association requests that all members respect this policy as a means to help protect its participants from physical abuse, sexual abuse and other types of misconduct, including emotional abuse, bullying, threats, harassment and hazing.

To help prevent abuse or misconduct from occurring in our locker rooms, has adopted the following locker room policy. This policy is designed to maintain personal privacy as well as to reduce the risk of misconduct in locker rooms.

There are a number of locker rooms available for program use. Some teams in our program may also occasionally or regularly travel to play games at other arenas, and those locker rooms, rest rooms and shower facilities will vary from location to location. We expect that all team and event organizers will attempt to provide information on the locker room facilities in advance of games/activities. When participating in arenas for which you are unfamiliar, we expect that parents/team representatives plan to have extra time and some flexibility in making arrangements for their child/individual to dress and undress.

### **Locker Room Monitoring**

American Special Hockey Association has predictable and limited use of locker rooms and changing areas (e.g., generally 30-45 minutes before and following practices and games). This allows for direct and regular monitoring of locker room areas. While constant monitoring inside of locker rooms and changing areas might be the most effective way to prevent problems, we understand that this would likely make some players uncomfortable and may even place our staff at risk for unwarranted suspicion. American Special Hockey Association expects that team/event organizer staff will conduct a sweep of the locker rooms and changing areas before players arrive, and if the coaches are not inside the locker rooms, either a coach or voluntary locker room monitors (each of which has been screened) will be posted directly outside of the locker rooms and changing areas during periods of use, and leave the doors open only when adequate privacy is still possible, so that only participants (coaches and players), approved team personnel and family members are permitted in the locker room. Team personnel will also secure the locker room appropriately during times when the team is on the ice.

### **Parents in Locker Rooms**

We discourage parents from entering locker rooms unless it is truly necessary. If a player needs assistance with his other uniform or gear, if the player is or may be injured, or a player's disability warrants assistance, then we ask that parents/guardians let the coach know beforehand that he or she will be helping the player. The coach may in his or her discretion prohibit parents from a locker room. To ensure compliance and privacy protection for independent individuals, the coach shall (as needed):

1. Require that all adults entering the dressing room have verified documentation of an accepted background check and sexual abuse training.
2. Determine the need for a "Family Dressing Area" (Similar to a Family Bathroom)
3. Implement a "Skate Tying Area" outside of the dressing room (often a primary reason for parental/guardian support.)

We encourage parents to teach players how to get dressed so that players will learn as quickly as possible how to get dressed independently. In circumstances where parents are permitted in the locker room, coaches are permitted to ask that the parents leave for a short time before the game and for a short time after the game/activity so that the coaches may address the players.

### **Mixed Gender and Mixed Needs Teams/Organizations**

American Special Hockey Association consists of both male and female players. It is important that the privacy rights of all of our players are given consideration and appropriate arrangements made. Deliberately exposing a special hockey player or minor to inappropriate observation or nudity is a noted violation of guidelines. If a player requires privacy for any reason, it is expected that the parent/guardian will make arrangements in advance to reduce the risk of any unwarranted suspicion and protect the privacy of the player. Where possible, American Special Hockey Association will have the male and female players dress/undress in separate locker rooms. This extends to individuals who require assistance from their parent/guardian to dress them. After dressing, the team can convene in a single locker room before the game or team meeting. Once the game or practice is finished, the players may come to one locker room for a team meeting and then proceed to their separate locker rooms to undress, if available. If separate locker rooms are not available, then the players will take turns using the locker room to change. We understand that these arrangements may require that players arrive earlier or leave later to dress, but believe that this is the most reasonable way to accommodate and respect all of our players.

### **Cell Phones and Other Mobile Recording Devices**

Cell phones and other mobile devices with recording capabilities, including voice recording, still cameras and video cameras, are not permitted to be used in the locker rooms. If phones or other mobile devices must be used, they should be taken outside of the locker room.

### **Prohibited Conduct and Reporting**

American Special Hockey Association prohibits all types of physical abuse, sexual abuse, emotional abuse, bullying, threats, harassment and hazing. Participants, employees or volunteers in the American Special Hockey Association may be subject to disciplinary action for violation of these locker room policies or for engaging in any misconduct or abuse or that violates the policies. Reports of any actual or suspected violations, you may email the appropriate authorities in your local area and to the American Special Hockey Association.
