PLEASE MAKE SURE YOUR SCOREKEEPER KNOWS THEY MUST WRITE LEGIBLY AND THE PLAYERS NUMBERS, NUMBER OF GOALS/ASSISTS, PENALTIES, & SAVES, MUST BE ACCURATE. BY PERIOD SUMMARY AND TOTAL GOALS MUST BE FILLED OUT

If you notice after the game that the score sheet has incorrect numbers, etc. on it, please speak with the refs, scorekeepers, and opposing Team's Manager to clear up any discrepancies **immediately after playing the game**. This will help to insure the stats are correct and make your job easier.

PLEASE MAKE SURE YOUR ROSTER AND JERSEY NUMBERS ARE CORRECT IN THE SYSTEM – THIS WILL MAKE EVERYONE'S JOB EASIER.

The website has the capability to track player's statistics in a cumulative format as they go forward season to season within WHAM regardless of the team they were rostered on.

Remember-The team manager(s) must first have obtained admin privileges for their team's home page from the league administrator, Erika, before they will be able to enter or edit players and STATS.

ROSTER DIRECTIONS FOR TEAM MANAGERS

Adding a Player to a Roster from the Member Directory:

1. Login to the WHAM website.
2. Go to your Team Page.
3. Ensure you are in Edit Mode.
4. Click on the Roster button.
5. Select Add Player.
6. Choose-from Network Member Directory.
7. Start typing the player's name in the Search profiles by name window, or select from the scroll menu.
8. Select the Player you wish to claim (by creating your roster through the Network Member Directory they will automatically be linked for STATS).

9. Enter the Jersey Number **AND** Position. Both jersey # AND position must be filled in in order for a player to generate on team stats.

To edit a player already created (e.g. to update their jersey # or position) please do the following:

1. Login to the WHAM website.
2. Go to your Team Page.
3. Ensure you are in Edit Mode.
4. Click on the Team Roster button.
5. Select the Player.
6. Select the edit button on the player's profile.
7. Make the necessary edits. Teams can enter more than one jersey # per person by editing and using a "/" between numbers (e.g. 23/24)
8. Teams do have the option to distinguish between forward and defense and to list more than one position for each player. The default was to make anyone not a goalie a forward. Teams can update if they want for defense or multiple positions-it is not necessary for STATS.
9. Click save changes before leaving the page.

NOTE – a player listed under the roster button does not mean that a player is officially registered with the team. The homepage of each team has an updated “registered players list” that is the accurate registration list of players.
