

COVID-19 Guidelines

- Players should arrive on time “not early” and remain in their car until the exact time of the session. This will help ensure any previous group has already departed and there is not a congregation of individuals waiting by the side of the field.
- Spectators are currently not permitted at Ballyhoo indoor activities. Should a parent insist on walking their child into the facility for a session, they must comply with the facility Covid-19 guidelines and then leave again after drop-off. All spectator areas have been removed or closed off, including the upstairs seating area.
- Coaches are to wear a face covering at all times.
- Mask mandate: Face coverings must be worn by Athletes when arriving and leaving, and also when on the bench, sitting down or resting between activities. It is also strongly encouraged that face coverings be worn by Athletes while they are participating in physical activities.
- Temperature checks will be performed on each player and coach prior to every practice.
- Symptoms to watch for: -
 - A fever above 100.4
 - Excessive coughing/shortness of breath
 - Sore Throat/loss of taste/smell
 - Vomiting/Diarrhea
- Anyone who has had any of the above symptoms in the last 48 hours will not be allowed to participate until he or she has followed the required quarantine period or if they can provide a negative test result.
- Parents should not send their child to any Ballyhoo activity if they have had any of these symptoms.
- A player who has tested positive for Covid-19 or had **close contact** to a positive Covid-19 carrier must quarantine as required by CDC/PA Dept. of Health. They can only return after the required quarantine period or if they get a negative test result.

Close contact is defined as any individual who was within 6 feet of an infected person for at least 15 minutes or more over a period of 24 hours, starting from 2 days before the illness onset.
- Any team that has had close contact with a positive Covid-19 carrier should suspend activities for a minimum of 7 days from the date the player last attended a team event. Unless the Covid-19 carriers symptoms began more than 48 hours after the event. *Players/parents on the team should monitor for any symptoms and contact coach immediately if they display any.*
- Players & coaches should implement social distancing when not actively playing. Players equipment, bags and drinks should be stationed at least six feet from the next player.
- Only coaches can touch or move equipment, cones, goals, nets etc.....No sharing of pinnies
- Pick up from practice should be “on time”. Players will exit out of the side lower door, via the exit ramp, not through the main gym. Players are not to congregate while waiting to be picked up.
