

Mid-America GU Grant Request Guidelines

Grant request forms must be completed in order to be considered.

The person and/or team must be a member of both Mid-America and USA Rugby to be considered for a grant and be current on all dues. Funding is not intended to promote or fund individual rugby players but can be used for a coach or referee certification or education of an individual. In all cases, the applicant organization/program must present a clear statement of purpose to promote the sport of rugby in the service area of Mid-America GU.

Deadlines for grants are intended to precede the two competitive cycles of the rugby season. The two deadlines are August 31 for the fall season and February 28 for the spring season, or 2 weeks prior to course participation.

Grant awards will be announced and distributed on or by September 15 and March 15 or after the completion of a course or events if that is what the grant is for.

The funds available for grants will vary from year-to-year based on the allotted monies that Mid-America has available for grants. Applicants may request any amount, but the available funds may be distributed to multiple organizations. There is no assurance that the grant application will be funded in the amount requested.

An organization or individual may apply for funds once in each funding cycle.

No funding will be given for:

Retroactive reimbursement for funds already spent (meaning after the fact)

Organizations that discriminate on the basis of race, religion, national origin, sexual orientation, age or disability.

In addition to the specifics of each proposal, Mid-America will consider whether:

The organization/individual has demonstrated the capacity to carry out the project, including necessary staff and financial resources.

There is an adequate plan to evaluate the impact of the project/use of funds

Funding has been requested or secured from other sources rather than the Mid-America being the sole funder.

The organization/individual has a track record of success
