Add Call Up Permit

Existing Call Up Permits

How to generate a Call Up Permit

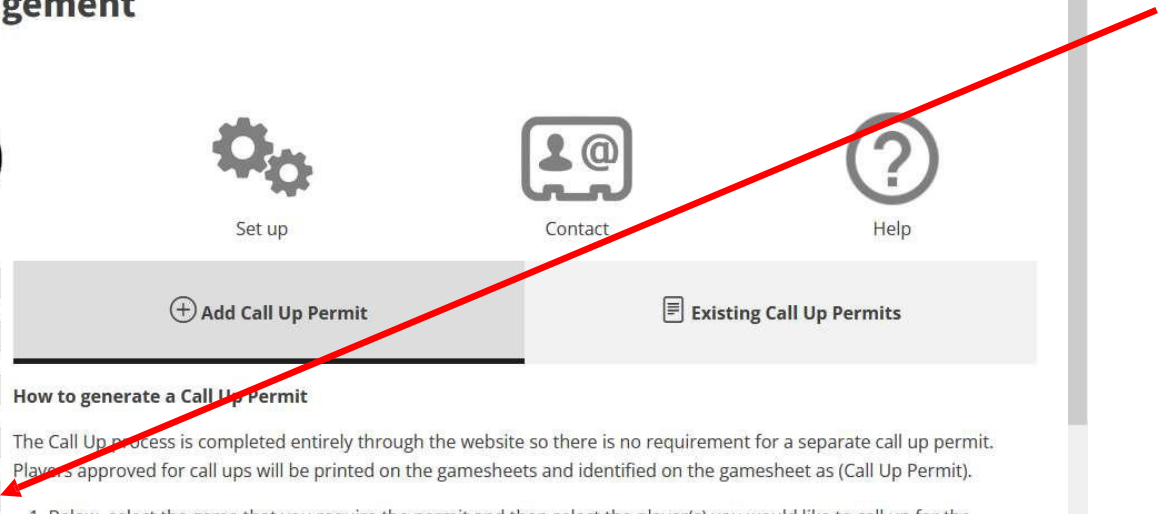

The Call Up process is completed entirely through the website so there is no requirement for a separate call up permit. Players approved for call ups will be printed on the gamesheets and identified on the gamesheet as (Call Up Permit).

- Below, select the game that you require the permit and then select the player(s) you would like to call up for the selected game. All players registered in the league within your club are listed.
- Players can be filtered using the search field above and to the right of the list of players.
- Click the 'Submit Call Up Request' button
- An email request has now been sent to your Club Representatives asking them to approve or decline your request(s). When they have done so you will receive an email informing you of their decision.
- If the request was approved, the player will be on the gamesheet for the selected game when printed.

**Note:** Please note that the call up permit tool does not ensure that the player you have requested is eligible to play for your team. You must still check the league bylaws to see if the player is eligible. If you play an ineligible player you may face discipline.

House league players must be added by your Club Administrator before they are available to be selected to be called up.

To generate a Call Up use this tool
