## AAHA 1000 PUCKS COMMINISUCCIED

## CHALLENGE

The Wrist Shot is a valuable tool for players of all ages. This is the most accurate shot in hockey as the puck is in contact with the stick throughout the shooting motion.

SNAP SHOT WEEK 3 & 5

The Snap Shot is quicker than a wrist shot and more accurate than a Slap Shot.

It's probably the most widely used shot in hockey today. The most important attribute of a good snap shot is the speed with which you can release the puck.

DRAG & SHOOT WEEK 6 The ability to shoot the puck in various situations that arise during a hockey game is an invaluable skill. The Drag & Shoot drill provides a game-like situation that includes a set-up move prior to the shot changing the angle of the shot and creating more speed on the shot.

STICK # HANDLE & QUICK RELEASE WEEK 8

Quickness often trumps power when it comes to generating quality scoring chances.

Whether in traffic or off the rush not giving the goalie a chance to get into their set position is key.

HOW WELL DO YOU THINK YOUR SHOT WOULD IMPROVE IF YOU TOOK OVER 10,000 SHOTS OVER A 15 WEEK PERIOD?

GOAL: Increase shot speed, quickness, and

accuracy

PLAN: Shoot 10,000 pucks in 15 weeks WEEKLY GOAL: 700 SHOTS PER WEEK

DAILY GOAL: 100 shots per day

The Backhand Shot is maybe the most difficult for a goalie to save, and probably the most difficult to master.

WRIST SHOT
BALANCING
ON ONE FOOT
WEEK 4

Seldom is a player in the perfect position for a shot on goal, this drill works on proper

technique while in an off-balanced position

SLAP SHOT WEEK 7 Timing and proper technique are the foundation of mastering a powerful Slap Shot. Of all the shots in hockey, the Slap shot has the most speed and power.

A difficult skill to master, but one well worth practicing, the one-timer slap shot can be executed while stationary, or in motion, Again as with any one-time shot, timing is the key.

Think the 10k puck challenge is just for players? Think again. AAHA is challenging all Goaltenders to take the 10k puck challenge, by taking 10,000 shots using various shots and angles. Find a friend or family member that will shoot on you and follow along each week. Remember, you don't have to make 10,000 saves, just be in the net for 10,0000 shots and work on your techniques.
