# Own Your Future - Player Driven Recruitment

At Cascade FC, we **EMPOWER** our players to take ownership of their futures. Our Playing in College program **ENCOURAGES** all of our high school players to pursue soccer after they graduate, whether that is at the varsity, club, or intramural level. Our amazing coaching staff work hard to **EXCITE** players and support them on their journeys to stay connected with soccer beyond their experience at Cascade FC.

Our expectation is that our players become leaders of their own recruitment process. However, they will not be left alone. Our Playing in College Program provides the necessary balance of organization, mentorship, communication, and tools/resources to help players confidently find the best fit based on their academic, personal, and athletic needs.

## How We Help

### PERSONALIZED RECRUITMENT PLAN

- We work directly with each interested athlete to create a Personalized Recruitment Plan (PRP) based on the athlete's academic, personal, and athletic needs
- PRP includes step by step instructions to help organize athletes as they lead their own recruitment.

### MENTORSHIP

We pledge to help each player through the recruitment process by:

- conducting presentations on specific aspects of recruitment
- hosting and sharing ScoutingZone presentations/materials
- creating Personalized Recruitment Plans

### COMMUNICATION

- Frequent check-ins to make sure every player is on track with their own plan (in person, over the phone, Zoom)
- Available to answer questions, respond to concerns, or to discuss the process in general.

### SCOUTING ZONE

- Recruitment service that we provide to all our high school players, FREE of cost!
- Allows players to create their own profiles to connect with college coaches/scouts
- Provides a built-in search engine that simplifies and personalizes the school search process
- Exposes players to hundreds of programs across the country

## A Program Created from Experience

### LED BY CAMERON SCOTT

"I consider myself lucky to have had mentors that supported me in my dream of playing college soccer. Playing soccer in college was a life changing experience that helped me grow on and off the field in ways that I never could have imagined. As a coach, I am dedicated to following my mentors' footsteps by supporting all of our players in their pursuit to find a school that fits their academic, personal, and athletic needs. With over 5 years of college coaching and recruiting experience, I am confident that our program and I can help players and families navigate their way through the recruitment process. Our players at Cascade FC are special and I can't wait to see how they make positive impact for programs across the country, both on and off the field."
