

## Dual Participation Rule

### 8.1.4 No Dual Participation

Youths who participate in any non-NYFL organized football program are not allowed to simultaneously participate in the NYFL program. Each franchise must undertake reasonable efforts to enforce this rule. If, following a NYFL board investigation, the board determines (by a majority vote of Franchise Presidents) that a player has simultaneously participated, or is simultaneously participating, in another organized football program, regardless if it with a public or private organization, the player shall immediately be suspended from NYFL games and practices for the remainder of the season. Further, if it is determined that the franchise knew or reasonably should have known about such dual participation, the NYFL board may in its sole discretion require such franchise to (1) forfeit all wins recorded during the period of such dual participation, and/or (2) suspend such team from further play, and/or (3) fine the franchise up to \$500, and/or (4) remove the franchise from the NYFL.

As a player and parent of the Oxford Junior Wildcats, we have read and understand that if at anytime we have or are participating in another non-NYFL organized football program OJW will immediately suspend said player from OJW for the remainder of the season. Under no circumstance will that player be allowed to return during said season, and no refunds will be issued.
