

Oshkosh West Athletics YouTube Events FAQ

Oshkosh West will be streaming all athletic events for the winter sports. Events will be streamed to our official [Oshkosh West Athletics YouTube channel](#) either via a camera mounted in the main gymnasium or via iPads for events streamed from other locations. **If you subscribe to the YouTube channel you can easily tune in to future live athletic events.** [Click here](#) for a video on how to subscribe to the channel.

Should I have a YouTube account to stream the athletic events?

On most devices you can access YouTube without having to have an account or sign in. If you do sign in, you can subscribe to the channel as mentioned above and then you can go to the “Subscriptions” area of the YouTube app to easily find the channel for future streams. When you visit youtube.com you can click in the upper right corner to either sign or to create a YouTube account.

What devices can a live stream be viewed from?

Many devices can access the live streams! Below is some information on how to access the streamed events from different devices:

- Phone or tablet: Visit the app store for your device and download the YouTube app. Search for Oshkosh West Athletics to find our channel. You can subscribe to our channel and click on the bell symbol to subscribe to notifications for when we go live.
- Smart TV: Install the YouTube app for your TV. Many TV YouTube apps will ask you to sign in to YouTube. If you subscribe to the channel on a phone or computer and you sign into the TV using the same YouTube account, your channel subscriptions will sync between the devices so you will easily be able to find the Oshkosh West Athletics events in the future.
- Roku, Apple TV, Amazon Fire Stick, etc.: Most streaming devices have a YouTube app and many will ask you to sign in. You can download the YouTube app from your device app store and then search for Oshkosh West Athletics to view the channel. When events are live you will be able to click to join them.
 - Different devices will provide a slightly different experience but in general it should be fairly similar. Here is a video that demonstrates signing into the YouTube app on an Apple TV device. Options are provided to sign in directly on the app, signing in on a phone or skipping signing in. [Click here](#) to see that video.
- Chromecast: If you have a Google Chromecast hooked up to your TV (or if your TV supports Chromecast), you can cast the YouTube stream to your TV from a phone, tablet or computer. After joining the stream click the Chromecast icon to cast the stream to your TV (pictured → ).

Where will spectators be able to find the live events?

When events are live streamed, users will see a “Live now” section when visiting the YouTube channel. Events streamed from the main gym will begin streaming automatically 15 minutes before the scheduled tip-off. Visit the YouTube channel, Oshkosh West Athletics, 15 minutes before the event starts or anytime after and you will be able to click on the event to see the live stream.

Why do I see some events listed and not others?

Events that are filmed outside of the main gym will be scheduled in advance and a link to those streams will be visible in advance. Those events will be manually started approximately 15 minutes prior to the scheduled start of the game but the time may fluctuate slightly. Events that are taking place in the main gym will be steamed from a Hudl camera that is mounted in the gym. Those events will not show up in advance but as soon as the camera turns on 15 minutes before the event you will see the event listed as being live.

Will away events be streamed as well?

Yes, away events will be streamed as well. Each school district is responsible for setting up their own streaming system. The links to all the Fox Valley Association (FVA) school streaming sites can be found on the www.fvasports.net website and a link has been pasted here for convenience:
<https://www.fvasports.net/page/show/6066627-fva-livestream-links>

If I miss a live event, can I still watch it?

Of course! Events that are live streamed will automatically be added to the YouTube channel after the stream ends and the video processes. The conference has decided that videos will stay visible for at least one week after the original event air date.
