COMPLETE ABSENCE FROM TRAVELING TRYOUTS: REQUEST FOR PLAYER TO BE CONSIDERED FOR TOP TEAM (Last updated August 2022)

A player is normally not placed on the top team when there is more than one team for that grade. The parent/guardian of the player may make a formal written request for the player to be considered for the top team and the reasons such placement might be justified (e.g. consistent history of playing for team 1, off-season commitment to basketball through camps/lessons/practices/AAU, past performance, etc.). The request must be made to the team selection committee by sending the request to the President and Tryout Director in advance of tryouts (or prior to team selection if the absence was unexpected). The team selection committee will consider the request at the time of team selection (including the reason for the absence from tryouts, past evaluations of the player, and the overall evaluations of other players trying out for that same team) and only place such player on the top team with the unanimous consent of all members of the team selection committee.

All team selection determinations, evaluations, and votes are confidential.
