COVID VACCINATION SURVEY

Throughout this year, we have been closely monitoring the CDC, State, and Local requirements concerning camp and COVID. Our policies for Michigan Camp will be updated on an on-going basis to reflect the most current restrictions, regulations, and guidelines with the primary purpose of keeping all camp participants safe.

We strongly encourage all campers who are eligible to receive the COVID vaccination to do so prior to the start of camp. This will help protect you and those who are unable to be vaccinated due to age or health.

Parents, please note that if you are planning to be a camp volunteer or assist with driving to/from camp, you will need to be fully vaccinated.

We are required to have the COVID vaccination status of every single person who will be at camp. This information will drive pre-camp testing/screening requirements as well as influence other camp programming.

Complete the following form for your camper and yourself if you are planning to be a camp volunteer or assist with driving.
