

CLUB DIRECTORS' UPDATES – 1/1/2022

Happy New Year. As we get ready for a busy weekend, please see below for some important notes and updates.

Schedules

Power League – 12s & 14s schedules for 1/8 & 1/9 [are posted](#).

NW Boys' Tour & CEVA Friendship Tournaments (1/8) – schedules will be posted on 1/6.

Rostering

See the attached image – this shows what a legal roster looks like (as a blank template). You need to present a roster that looks like this at your tournaments this weekend. For ease of verification, we highly recommend presenting a hard copy roster to start the season.

If you have not started building rosters yet, please do so ASAP.

If you are struggling getting people to appear on a roster, or if they have a red triangle next to their name in the Governing Seasons, check the following:

- 1 – Have you sent them a club assignment? Did you send it to their correct e-mail address that has a membership tied to it?
- 2 – Have they accepted your club assignment?
- 3 – Does the individual have multiple profiles in your directory? If so, are you adding the profile to a roster that has a 7-digit USAV membership number attached to it?
- 4 – If the individual is a coach, have they completed all their eligibility requirements, such as a background screen, IMPACT training, and Safesport?
- 5 – If you're adding coaches to the roster, do they have a title in the Governing Seasons view? If a staff member has no title, they will present with a red triangle.

If you have individuals that don't get on a roster for this weekend, we can verify those memberships on the tournament day. TDs and officials can contact our staff to ensure a player or staff member has a valid membership and can participate.

Please do not wait until the last minute to work on your rosters. Our staff bandwidth is limited as we try to support upwards of 90 clubs.

Background Screens

Screens are taking an unusually long time to clear right now because the company conducting the screens is bogged down. If you have coaches who have not submitted a background screen yet, but who are planning on coaching this upcoming weekend, they need to get their screens submitted now. If they wait, it's highly unlikely they'll clear by this weekend. Background screens from other entities, like a school district or another governing body, are not valid in USAV.
