

Returning to the Ozaukee Ice Center

Pursuant to the recent ruling by the Wisconsin Supreme Court, and in accordance with The COVID-19 Emergency Proclamation Number 5 (dated May 14, 2020) issued by the City of Mequon, the Ozaukee Ice Center is in the process of re-opening for public use. This document will provide an overview of the processes, procedures and timelines that will be utilized as a pre-condition for the Re-Opening and the continued usage of the Ozaukee Ice Center. We ask for your continued cooperation and patience at this time in complying with the extra precautions described below so that we can do our best to provide a safe and well-managed environment for our users and staff.

The Opening Guidelines are in effect through June 12. New Guidelines will follow for after June 12 as we get closer to that date.

Opening Guidelines by Rink

North Rink

Dry Floor Opening Date: May 30

Group Size Limitations: 20

Rentals: Booked on an hourly basis. Email ozicecenter@gmail.com to reserve. Bookings previously scheduled after May 30 are still in effect unless they have been canceled.

Extra Precautions through June 12

- User group must provide a complete participant list and all users (or their legal guardians if below 18) must sign online waiver before entering the facility. We reserve the right to deny entry to (or ask patrons to leave) any participants that have not executed such waiver.
- Only participants in rink activities should enter the facility. At this time, we ask that parents and non-participants remain outside or in their cars to the extent reasonably possible. If it is essential that a non-participant enter the facility, please remember that lobby chairs (or picnic tables) must be grouped at least 6 feet apart from each other.
- They will be no Drop-In or Public sessions.
- We have established one-way Entry and Exit points into and out of the Facility. Such routes will be clearly marked. Please use such access points as designed (e.g., access into the north rink will be through the open doors on the north side and enter/exit the playing surface through the bleacher side access door).
- Front table will include Hand Sanitizer and “Daily Operating Procedures” information.
- We have scheduled a 10-min gap between groups so there will be no user overlap. Users will be permitted to enter the building 5-minutes before their allotted time slot, with the “OK” from staff or booking coordinator, and they will have 5-minutes to exit the facility when their time slot is over. We urge all users to use reasonable diligence to exit the facility in a timely manner once your activity time has concluded.
- Movement between Rinks has been temporarily restricted. Accordingly, access to the North Rink is only possible from the parking lot entry doors (not from South Rink Lobby)

- Use of the Locker Rooms is temporarily suspended, and the Locker Room Hallway will be blocked off. Please come to the rink prepared for your activity. The restrooms are similarly not to be used for changing purposes.
- Water Fountains and bottle fillers will be shut off so participants will need to bring their own water bottle(s).
- Staff/customer interaction will be only as needed
- Restrooms should only be used if urgent
- Players and visitors should not loiter or venture around or explore other parts of the rink
- The entryways door handles, restroom fixtures, lobby chairs/tables, rink gate door handles will all be disinfected every hour
