  - Measures of Enjoyment
    - Players want to be there
    - Player want to play for their coach
- Player Development
  - Age/Skill appropriate playing environment
- 6-3-1 Philosophy (5-2-1)
  - Ensures all teams are progressing and improving consistently, as well as experiencing the emotions of winning and losing through manipulating six wins, three losses and one tie throughout the year.
  - If a team is winning all the time, they are encouraged to schedule a scrimmage against tougher competition to be sure they are being pushed. Likewise, if a team is in a losing slump, then a scrimmage is encouraged against an opposition that they should beat, to regain a positive attitude, develop a goal scoring mentality and create confidence in defense.
  - Development is always more important than winning with the Boys & Girls Clubs – Alaska Athletics, and so understanding all experiences of the game is essential to team and player development.
- Competition will naturally be present whenever there is an athletics contest to determine a winner. However, with Boys & Girls Clubs - Alaska Athletics, though winning may be a desirable result, it is not the top priority for our Athletics programs. Life lessons like enjoyment, mindfulness, accountability, respect, and compassion are and our coaches are trained to encourage each child to develop his/her talents and skills through participation, fair play, sportsmanship, cooperation, teamwork, and effort.

### Role of the Parent

- The role of the parent is extremely important for all young athletes.
- Whether it is at training, during a game or on the ride home it essential that there is positive feedback.
- At training and games players should feel that they can perform what the coach is asking them to do and not what their mother or father is asking them to do.

  - Please remember, 99.99999% of youth soccer players around the nation will NOT play professionally. But if we as an organization, coaches, and parents work together for the kids, we can help them do well in school, earn a college degree, be a valuable member of our community, and hopefully, maybe one day, one of these kids will cure cancer.
