

## **Covid Guidelines for Referees**

**12/07/2020**

1. Mandatory mask per WIAA and WAHA guidelines
2. Please stay at least six feet apart in the Referee room and give yourself enough space and distance from your partner. Locker Room E for WIAA games.
3. If there are consecutive games with a change of referees, the referees for the next game should exit the Referee room at the end of the current game so that the current game referees can get changed after their game. You can either wait outside the Referee room for the next game to start or you can wait in locker room E providing there are no girls or other players getting dressed in that locker room.
4. There will be no handshakes allowed after the games. Let one team exit the rink before the other team is allowed to do so to allow for social distancing.
5. Please introduce yourself to the coaches before the games asking if they have any questions but do stay at least six feet from them and do not shake their hands.
6. Use WAHA guideline for player mask requirements.
