

Mason City Schools Athletic Department

May 29, 2020

Dear Parents and Students

It is my hope that this message finds you and all of your family members in excellent health and spirit!

I'm sure you are aware of the Governor's decision, just the Thursday before our Graduation and Memorial Day weekend, permitting school districts (at their own discretion) to open up their facilities to the public and their respective sports programs. With this recent update, our Administration and Staff has collaborated, and with great attention, heeded the recommendations of the OHSAA, Premier Health (our Sports Medicine partner of 14 years) and the Warren County Health Department to establish a set of protocols to assure a safe return for our students and coaches.

As we move forward this week with specific sports training activities please keep in mind that per OHSAA guidelines all activities are optional. It is important to our Administration that we continue to strive to create opportunities for our student-athletes both in and out of season and we appreciate the commitment and dedication of our coaches in this mission.

In this "new normal " please feel free to ask questions, share concerns with us as this is new for everyone. We ask for your patience and understanding as we all navigate through this process over the next couple months. Be assured that the safety and wellness of our students and staff is imperative!

As always, if I can be of any assistance please do not hesitate to call or email me.

Thank you for your continued support!!

Go Comets!!

Scott Stemple
Director of Athletics
