

Background Check POLICY: The Board reserves the right to exclude a coach from participating in the assessment, draft and coaching in the absence of a signed background check. Volunteers must complete an online background check every two years.

Background Check POLICY: When a Background Check Report comes back with an Alert and derogatory information about a potential coach, the President has the authority, obligation, and discretion to withdraw that coach from coaching this season. The President makes this determination subjectively based on the type of criminal charge and the time that has spanned since the alleged violation occurred. To protect the anonymity of the coach in question, the President has no need to get further BBA Executive Board or BBA Board of Directors approval. The BBA nor the President can share in writing the findings of the vendor performing the background check and is not obligated to do so since the Background Check was paid for by BBA.

Score Book & Score Board Compensation POLICY: BBA will compensate a qualified teenager \$10 per person per game to keep the scoreboard and scorebook.

Draft POLICY: The League Director will keep track of the previous season's All Stars on a spreadsheet provided by the President and send the report to the President post-draft for retention.

Draft Trade POLICY:

This year we will keep track of ALL trades during and after the draft so as to determine later if any of the trades resulted in a "stacked" team. The League Director will keep track of all trades on a spreadsheet provided by the President with the following information: Players name, Draft Number, Round Placed, Coaches Name, Traded For, Players Name, Draft Number, Round Placed, Coaches Name. The League Director will give this sheet to the President post-draft for retention.

Draft POLICY: For the Girls 9/10, 11/12 and 13/18 leagues, each team is allowed to initiate post-blind-draft even round trades in order to get the girls on the same team that want to play together. This is being allowed due to our girls numbers being so low and the impression being that the girls are registering to play in order to play together. Post-blind draft is defined as after all of the grids are full but before anyone leaves the room. No post-blind-draft trades after the coaches have left the room.

DISCIPLINARY POLICY:

Any player caught committing a crime will be suspended from league play (BBA, GRABB, GBL) for an amount of time approved by the BBA Board. Any further incidents may result in permanent suspension from the BBA and associated leagues.
