

Current Certification Guidelines

- The Level 4 clinic was changed to a one-day event with a cost of \$60.00 (the same as Level 1-3).
- A coach is required to advance one level each year. Level 1 must complete Level 2 the following season, and so on until they achieve Level 4 certification. Note that 8U coaches can remain at Level 1 until they start coaching another level (10U or above).
- Once a coach reaches Level 4 or 5, they will go into Continuing Education which requires five continuing education credits over a three-year period. A menu of continuing education courses will be available later in the fall.

Note - Coaches who complete their Level 4 or 5 certification before the start of the 2021-22 season and are not coaching a Tier I or Tier II team will be “grandfathered” and will not have to take additional courses but are encouraged to continue their education as well.
